1.0 Introduction

1.1 Overview of PhIS

Pharmacy Information System or better known as PhIS, is a complete and comprehensive system that integrates pharmacy related services geared towards pharmacy excellence. PhIS implementation would transform most of current manual process to electronic system would benefit facility end user in the health care sector.

There are 12 modules to assist services delivery by the health care sector which comprises of:

1. Order Management
2. Inpatient Pharmacy
3. Outpatient Pharmacy
4. Medication Counselling
5. Ward Pharmacy
6. Pharmacy Inventory
7. Manufacturing of Cytotoxic Drug Reconstitution, Parenteral Nutrition, IV Admixture & Eye Drop, Radiopharmaceuticals and Extemporaneous
8. Adverse Drug Reaction & Drug Allergic (ADR & DAC)
9. Clinical Pharmacokinetics Services (TDM)
10. Drug Information & Consumer Education (DICE)
11. Medication Therapy Adherence Clinic (MTAC)
12. Data Mining (PhARM)

1.2 Purpose and Objectives

This user manual outlines the Patient Management sub-module and its key features and functionalities.

The primary objective is to guide user through the process of completing PhIS application process.

User will understand the following activities in detail:

- Patient Registration
- Patient Quick Registration
- Visit Management
- Manage Duplicate Record
- Cancel Discharge Patient
- Clinical Summary
- Record Retrieval

1.3 Organised Sections

These are the sections within this document:

- Section 1 : Introduction
- Section 2 : Application Standard Features
- Section 3 : Patient Management
- Section 4 : Acronyms
- Section 5 : Links to Clinical Modules

3.0 Patient Management

Overview

The Patient Management module handles all the administrative events pertaining to patients comprises outpatient registration, inpatient admission, transfer and discharge. This module processes quick access to patient demographics and clinical summary. It also supports merge duplicate patient records.

User Group

This module is intended for registration staff and pharmacist. (subject to user assigned by the facility)

Functional Diagram

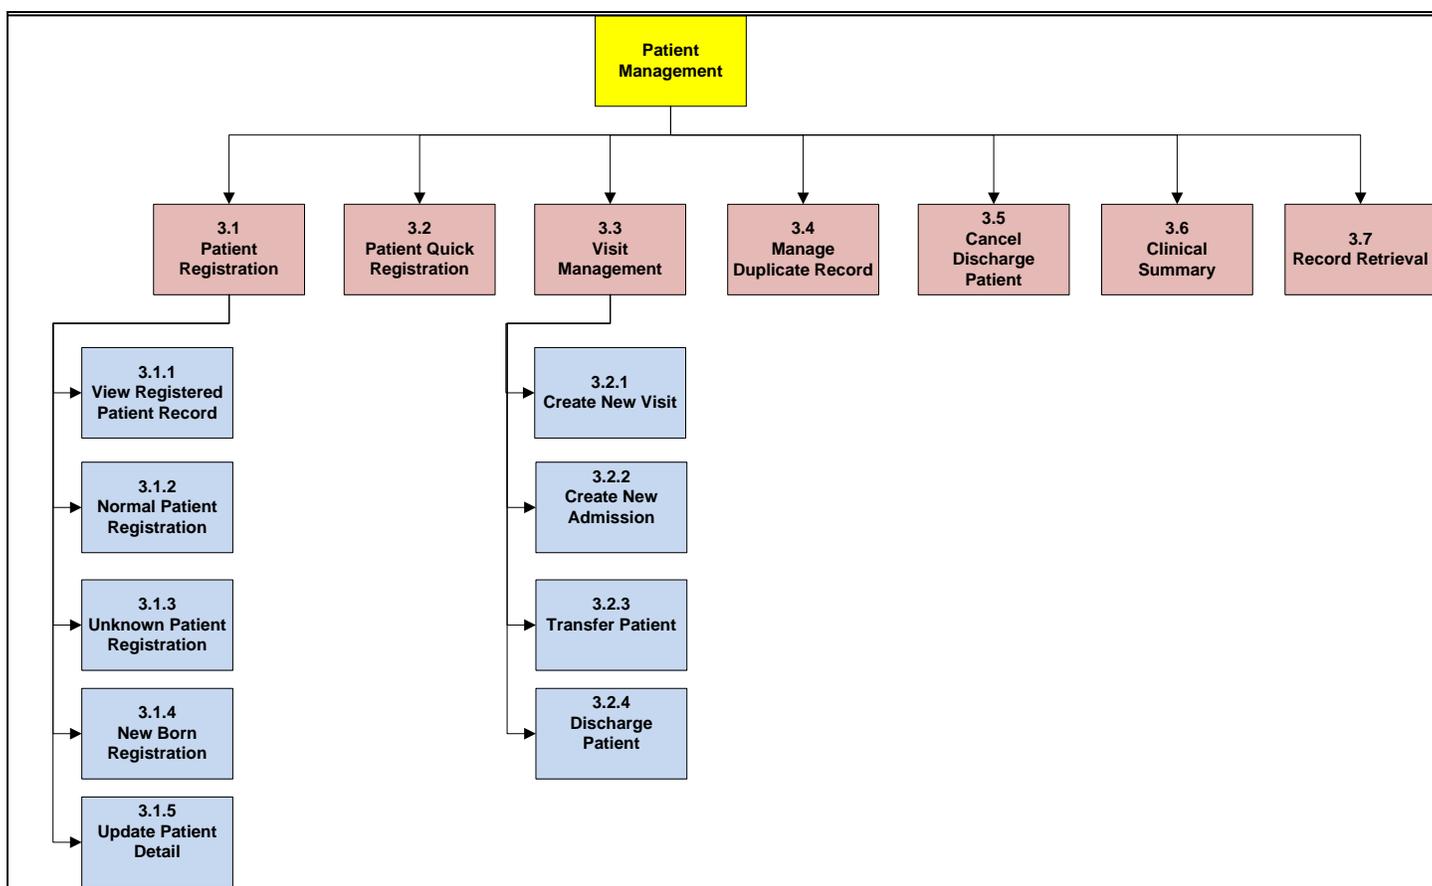

Table 3.0-1

Functional Description

Patient management comprises of seven (7) main functions:

- **Patient Registration**

This function allows user to record and update patient personal information and contact information, allows in handling all the administrative events pertaining to patients comprises outpatient, registration and inpatient admission.

- **Patient Quick Registration**

This function allows user to perform quick registration for new patient and acknowledge patient.

- **Visit Management**

This function allows user to create visit, transfer and discharge. It also supports printing of patient label and visit label. Patients can be transferred within the ward or inter-ward. For other types of patient, new visit needs to be created.

- **Manage Duplicate Record**

This function provides user the capability to combine/merge information related to the same patient who currently captured under different patient records e.g. duplicate MRN, Patient Name and ID Number.

- **Cancel Discharge Patient**

To cancel the discharged process

- **Clinical Summary**

Clinical summary will show summary of patient visit and medical information for the selected patient. It also contains patient diagnosis and allergy information

- **Record Retrieval**

This function provides user to retrieve back the record of dispensing and print the prescription, balance medication sheet, drug label and worksheet.

3.1 Patient Registration

Patient registration is used to create new patient records in facility with Medical Record Number (MRN). It enable user to register for three (3) basic types of patient; i.e. normal patient, unknown patient and newborn.

3.1.1 View Registered Patient Record

This function is used to retrieve and view patient registration details

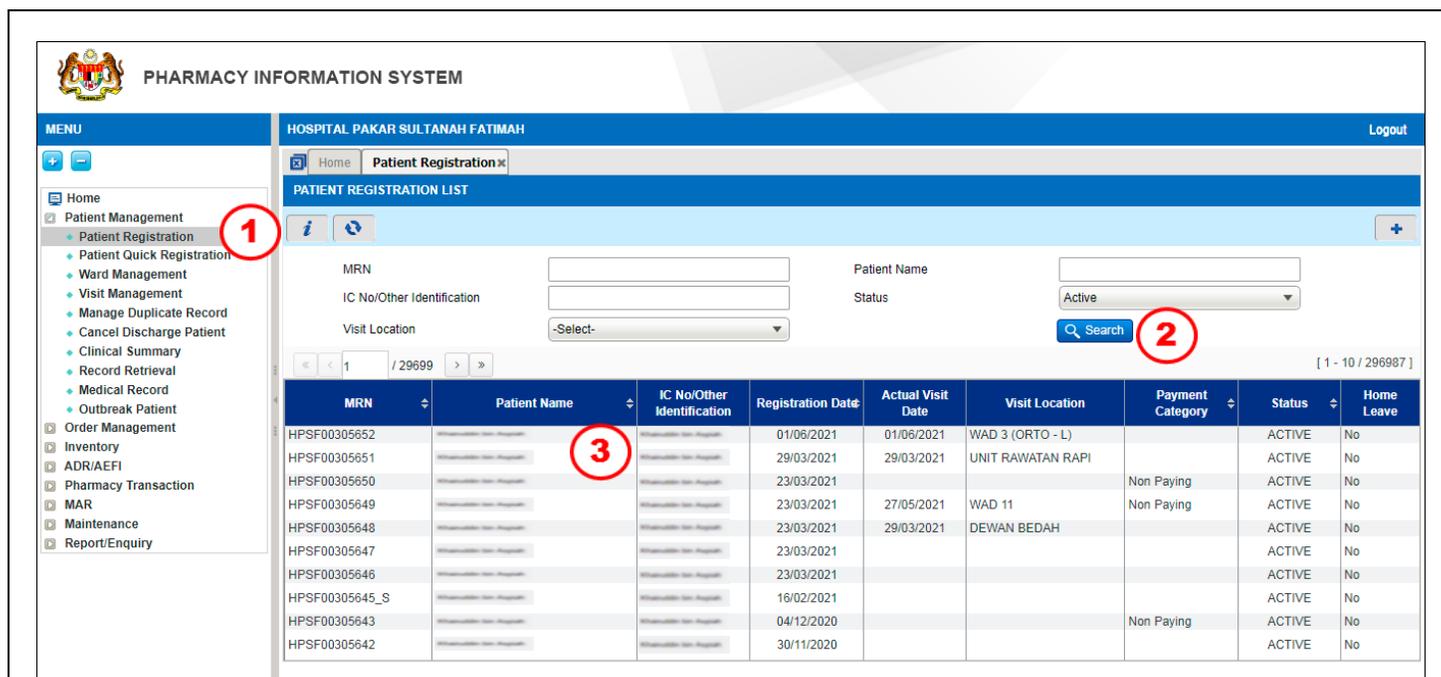

Figure 3.1.1-1 Patient Registration Listing Page

STEP 1

Click on 'Patient Management' and 'Patient Registration' sub-menu

Note

Various search criteria for existing Patient is provided as below:

No	Field	Description	Remark
a	MRN	Patient Medical Record Number	Search option: <ul style="list-style-type: none"> Type the MRN either full or partial: <i>Example : HPSF00001234 or "1234"</i>
b	ID Number	Identification Number	Allow to search by full or partial ID Number
c	Visit Location	Visit Location	Allow to search by facility location e.g:

No	Field	Description	Remark
			<ul style="list-style-type: none"> • Community Psychiatric Unit • Daycare Wad 5,7,8,9,10,11,15 • Dewan Bedah/Dewan Bedah Harian • Dewan Bersalin/Dewan Bersalin HD • Jabatan Bedah Mulut • Jabatan Kecemasan & Trauma • Klinik : <ul style="list-style-type: none"> - Berhenti Merokok - Dada - Nefrologi - Pakar ENT - Pakar Kanak-kanak] - Pakar Kulit - Pakar O&G - Pakar Ortopedik - Pakar Pembedahan - Pakar Perubatan • MTAC Clinic • Wad-wad 1-18 • Wad ISO
d	Patient Name	Patient Name	Allow to search by patient full name or partial
e	Status	Status of patient at the hospital	Allow to search by status either Active or Inactive

Table 3.1.1-1

STEP 2

Click on  button to search the patient

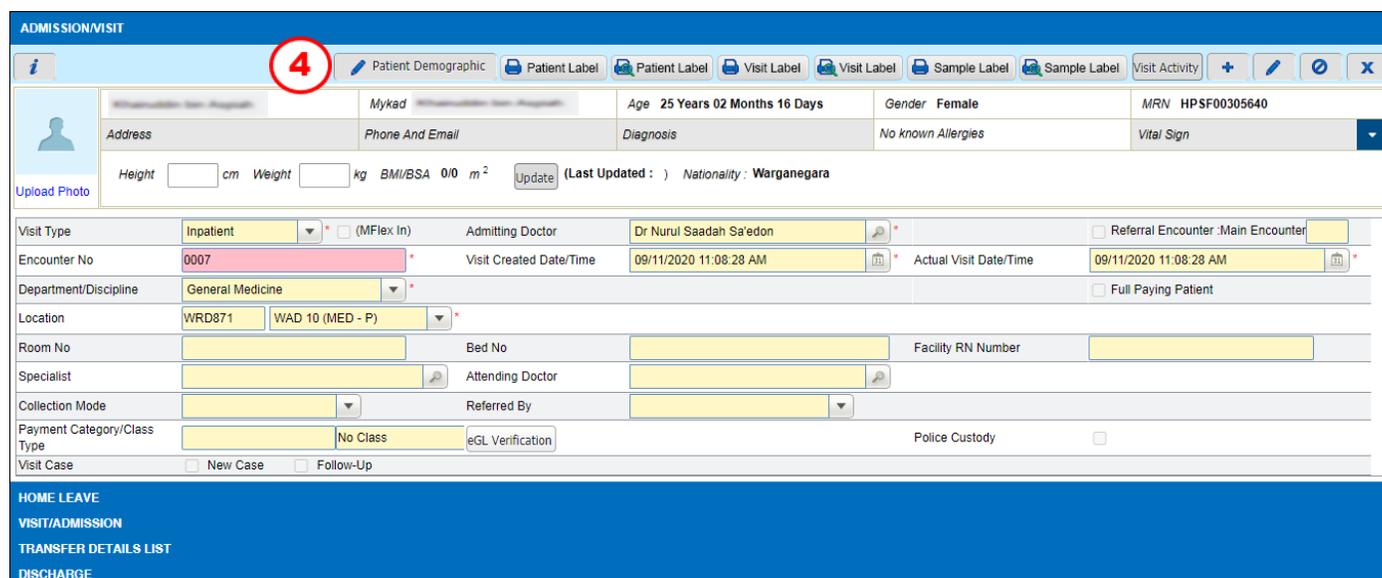

Note

Search result of current registered patient list will be displayed:

- **MRN**
- **Patient Name**
- **ID Number**
- **Registration Date**
- **Visit Date**
- **Visit Location**
- **Payment Category**
- **Status**

STEP 3

Double click on the selected patient as shown in Figure 3.1.1-1, new screen will display as shown in Figure 3.1.1-2

Figure 3.1.2-3 Patient Registration Information

STEP 2

Enter the **Patient Name** and select the **Title** from the drop down box:

- Cik
- Tuan
- Encik
- Puan
- Haji
- Hajjah

STEP 3

Select and enter patient's identification number from the **Identification Card Number** drop down box with below criteria:

- Mykad - for adult
- Mykid - for children below 12 years old

Note

Once **Identification Card Number** is entered, the below information will be auto-generated and displayed

- **Date of Birth** in dd/mm/yyyy format (e.g. 21/07/1991).
- **Age** in by year, month and day format based on current date (e.g. 22Y 10M 21D).
- For **Gender**, if the ID ends with even number, it represents Female. If the ID ends with odd number, it represents Male.

If Mykad or Mykid is not available, user will require to select from **Other Identification Number** drop down box and enter the necessary details according to their selection:

- Birth Certificate
- Driving license
- Father IC
- Military Card Number
- Mother IC
- MYKAS
- MYPR
- Old IC
- Others
- Passport
- Pension Card
- Police Card Number
- UNHCR
- Unknown Patient
- Work Permit

STEP 4

Select the **Payment Category** from drop down box:

- Paying
- Non-paying

STEP 5

Select the **Government Relationship** from drop down box:

- Child
- Father
- Foster Child
- Grandchild
- Handicapped dependent
- Mother
- Natural Child
- Other
- Parent

- Self
- Spouse
- Stepchild

Note

- **Government Relationship** is a mandatory field if **Payment Category** = 'NON PAYING'.
- This value will be verified online with HRMIS on patient eGL status.

STEP 6

Select the **Gender** from drop down box:

- Female
- Male
- Unknown

STEP 7

Select the **Religion** from drop down box:

- Animism
- Atheist
- Bahaism
- Buddhist
- Christian
- Confucianism
- Taoism
- Undisclosed
- Hinduism
- Islam
- No information
- Others
- Sikhism

Note

- The [Check Duplicate](#) button allows user to check patients records to determine if new patient has been registered in the facility.
- **Nationality** will be defaulted to Malaysia. Change to other country if patient is not Malaysian resident.
- Click on [Merged History](#) hyperlink to view patient merging history.
- Click on [eGL Verification](#) button to allows eGL Verification

OPTIONAL FIELDS – Registration Information Section

Below fields are optional. Please fill in accordingly where it is necessary.

- **VIP** – To classify as VIP patient
- **Government** – To classify as Government employee
- **Remarks**
- **Race** – select from drop down box:
 - Badang
 - Bajau
 - Baketan
 - Balau
 - Batang Ai
 - [Other List]
- **G6PD** – Deficiency enzyme of Glukosa-6-Fostat Dehidrogenase
- **Pensioner** – tick on checkbox and need to select drop down box:
 - Balu/Duda Persekutuan/Kesihatan Persekutuan
 - Balu/Duda Polis
 - Balu/Duda Tentera
 - Persara Persekutuan

- Pesara Polis
- Pesara Kesihatan Persekutuan
- Pesara Kesihatan Tentera
- Pesara Tentera
- **VAS** – VAS checkbox will be ticked if patient has been dispensed with VAS (Value Added Service)

Status – By default, patient status will be ACTIVE, user is allowed to change it to INACTIVE. Inactive patient's information contains history records for reference purposes. User is not allowed to create any transaction for this patient.

10

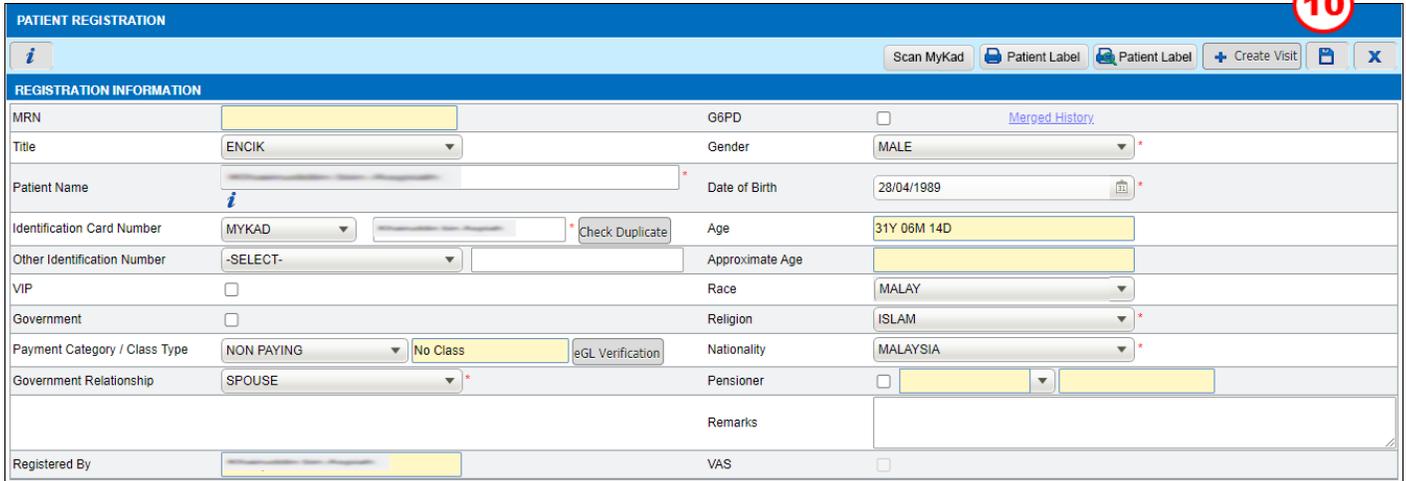

Figure 3.1.2-6 Patient Registration

STEP 10

Click on the  button to save record

Note

- **MRN** will be automatically generated by system when the patient record is saved. Refer Figure 3.1.2-7.
- **MRN** will be unique for each facility and will be based on facility code.

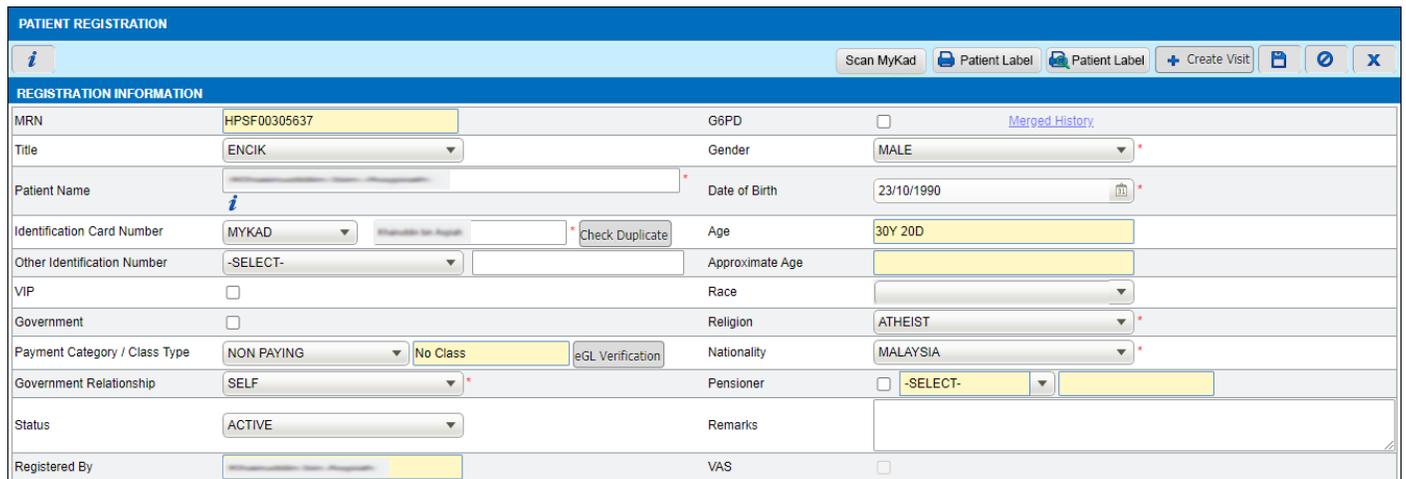

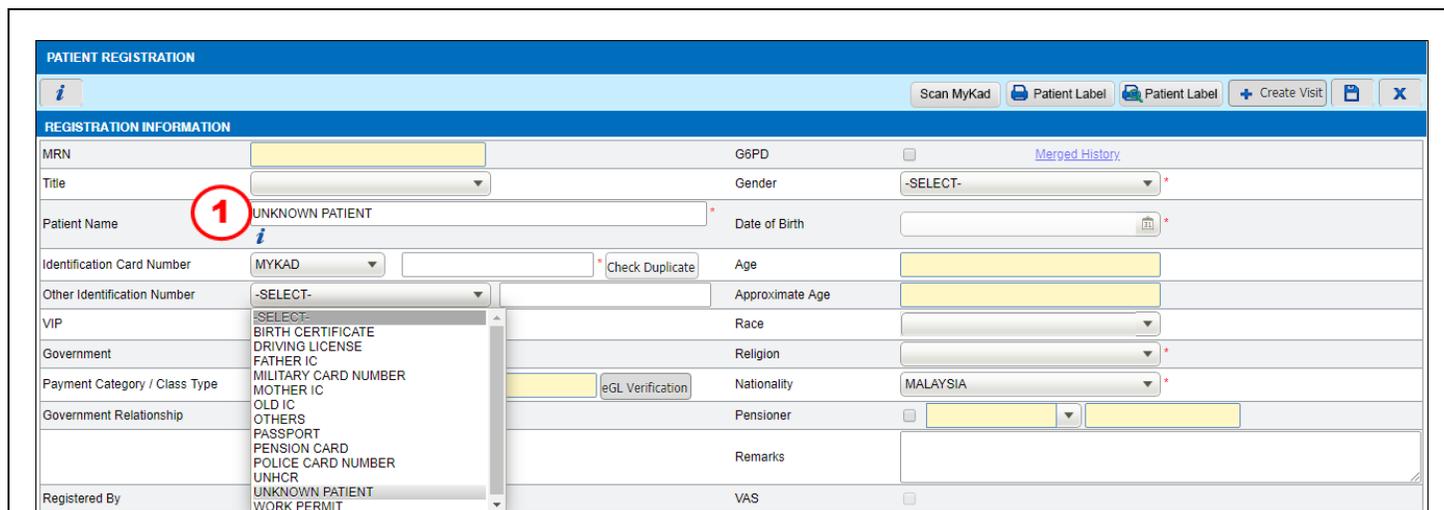

Figure 3.1.2-7 Patient Registration

3.1.3 Unknown Patient Registration

To register the unconscious or unidentified patient, perform the steps below.

The screenshot shows the 'PATIENT REGISTRATION' form. The 'Other Identification Number' dropdown menu is open, displaying a list of options including 'UNKNOWN PATIENT', which is highlighted with a red circle and the number '1'. Other fields in the form include MRN, Title, Patient Name, Identification Card Number (MYKAD), Date of Birth, Age, Approximate Age, Race, Religion, Nationality (MALAYSIA), and Registered By.

Figure 3.1.3-1 Patient Registration

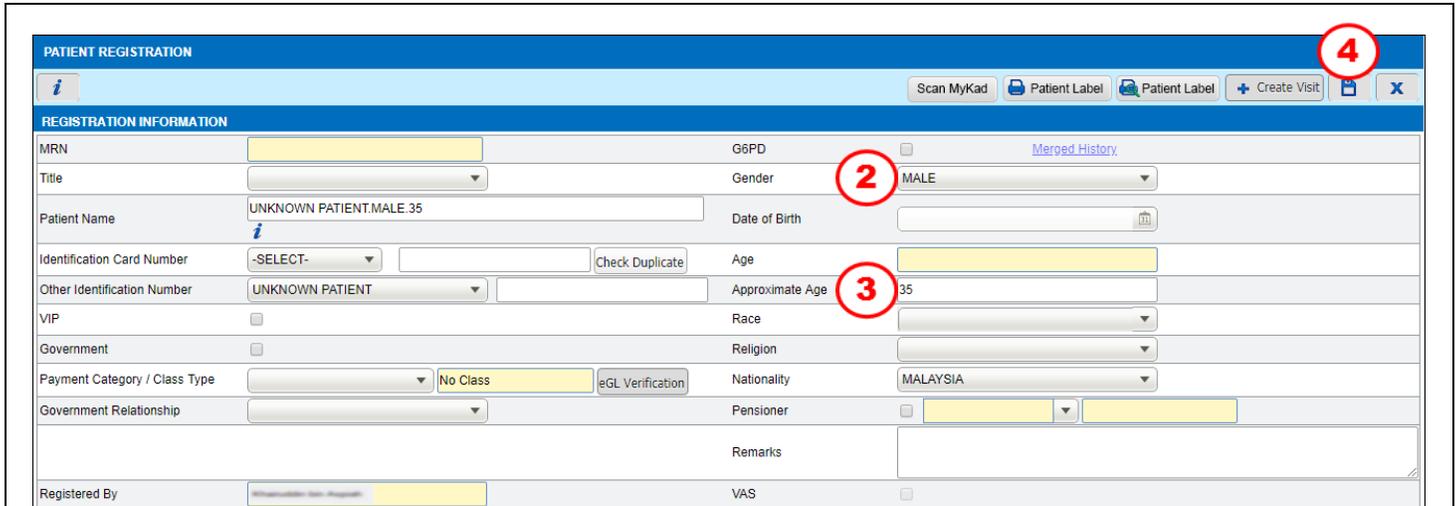

Note

- Repeat Step 1 as in normal patient registration (Section 3.1.2) before performs Unknown Patient registration steps.
- If Unknown Patient is selected, all mandatory fields for Normal registration will be disabled.
- Enter other optional fields if information is available.

STEP 1

Select Unknown Patient from **Other Identification Number** drop down box

- Birth Certificate
- Driving license
- Father IC
- Military Card Number
- Mother IC
- Old IC
- Passport
- Pension Card
- Police Card Number
- UNHCR
- Unknown Patient
- Work Permit

The screenshot shows the 'PATIENT REGISTRATION' form. At the top right, there is a '4' in a red circle pointing to a save button. In the 'REGISTRATION INFORMATION' section, there are several fields. A '2' in a red circle points to the 'Gender' dropdown menu, which is currently set to 'MALE'. A '3' in a red circle points to the 'Approximate Age' field, which contains the value '35'. The 'Patient Name' field is filled with 'UNKNOWN PATIENT.MALE.35'. Other fields include MRN, Title, Patient Name, Identification Card Number, Other Identification Number, VIP, Government, Payment Category / Class Type (set to 'No Class'), Government Relationship, G6PD, Date of Birth, Age, Race, Religion, Nationality (set to 'MALAYSIA'), Pensioner, Remarks, Registered By, and VAS.

Figure 3.1.3-2 Patient Registration

STEP 2

Select and enter from **Gender** drop down box:

- Female
- Male
- Unknown

STEP 3

Enter **Approximate Age**

STEP 4

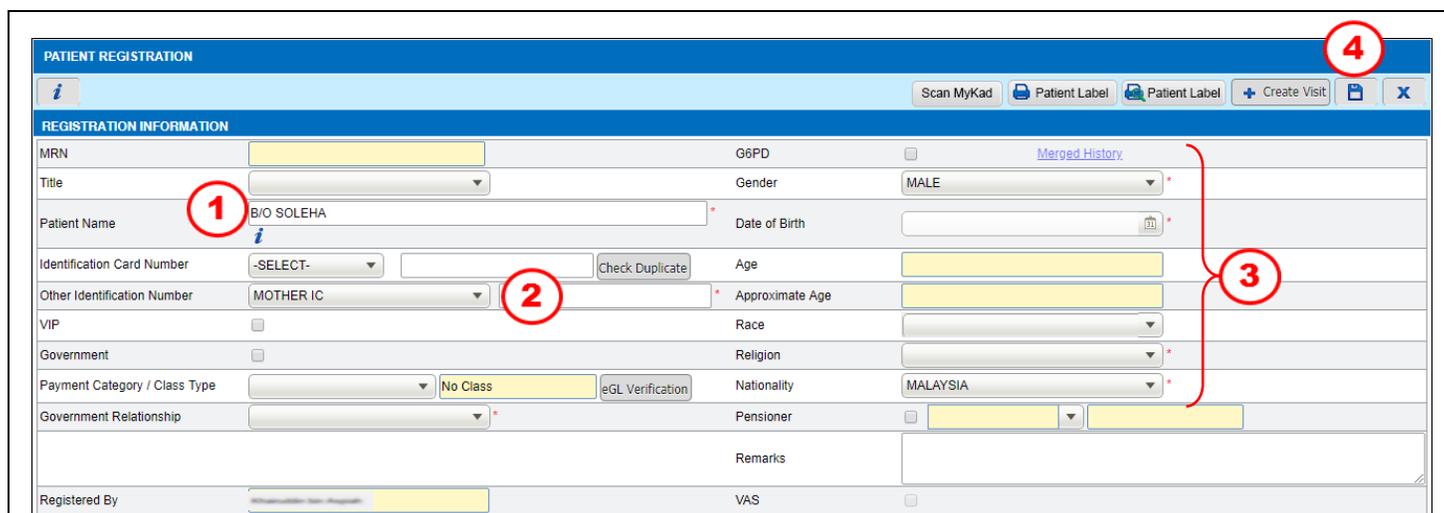

Click on the  button to save record

Note

- Upon unknown selection all mandatory field which use for normal registration section will be disable.
- Once **Other Identification Number** selected as Unknown, **Patient Name** will be automatically changed to UNKNOWN PATIENT MALE.35

3.1.4 New Born Registration

New Born registration flow is the same as normal patient registration flow except ID number will be changed to Mother IC / Father IC Number.

The screenshot shows the 'PATIENT REGISTRATION' form with the following fields and annotations:

- Annotation 1:** Points to the **Patient Name** field, which contains 'B/O SOLEHA'.
- Annotation 2:** Points to the **Other Identification Number** dropdown menu (set to 'MOTHER IC') and the adjacent input field.
- Annotation 3:** A bracket groups the **Date of Birth**, **Age**, and **Approximate Age** fields.
- Annotation 4:** Points to the top right corner of the form, near the 'Create Visit' button.

Figure 3.1.4-1 Patient Registration

Note

- **Repeat Step 1** as in normal patient registration before performs New Born Patient registration steps.
- If Mother IC or Father IC Number is selected, mandatory field for MYKad will be disabled.
- Enter other optional fields if information is available.

STEP 1

Enter Baby of (mother 's/father's name) at **Patient Name** field

STEP 2

Select **Other Identification Number** as Mother IC/Father IC and enter the identification number

Note

Repeat the same process as **Normal Registration** from **Patient Details** section until **Next Of Kin** section.

STEP 3

Select and enter mandatory field as below:

- **Gender**
- **Date of birth**
- **Religion**
- **Nationality**

STEP 4

Click on the save  button to save record

Note

Age normally will be automatically generated as **New Born** upon selection of the **Date of Birth** as current date.

Note

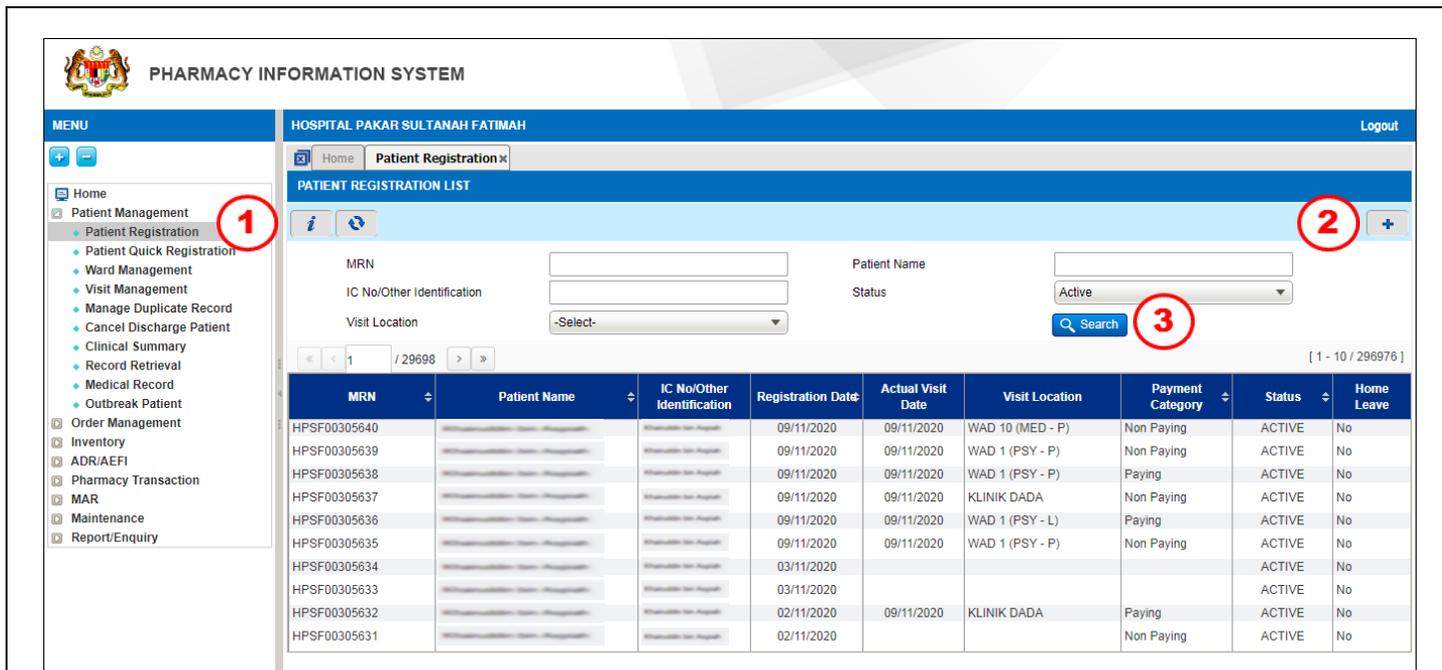

OPTIONAL FIELDS – Registration Information Section

Below fields are optional. Please fill in accordingly where it is necessary.

- **VIP** – To classify as VIP patient
- **Government** – To classify as Government employee
- **Remarks**
- **Race** – select from drop down box:
 - Bajau
 - Bidayuh
 - Bumiputra Sabah
 - Bumiputra Sabah Lain
 - Bumiputra Sarawak
 - Bumiputra Sarawak Lain
 - Chinese
 - Dusun
 - Iban
 - Indian
 - Kadazan
 - Kebayan
 - Malay

Figure 3.3.1-1 Patient Registration Listing Page

STEP 1

Click on 'Patient management' menu and followed by 'Patient Registration' sub-menu to create new visit for Inpatient

Note

- User can also have the option to create visit by click on the  button in the 'Patient Registration' sub-menu after entering all mandatory fields.
- Visit location depends on location setup for that facility. Different facility may have different visit location.
- Visit location will be setup in facility and drop-down box will be based on the facility data.
- On this listing page, user is allowing to random search with search criteria for existing Patient provided as below:
- Visit Management listing page for Pharmacy Based has checkbox to discharge patient.

No	Field	Description	Remark
a	MRN	Patient Medical Record Number	Search option: <ul style="list-style-type: none"> • Scan the MRN using barcode scanner. • Type the MRN either full or partial: <i>Example : HPSF00001234 or "1234"</i>
b	ID Number	Identification Number	Allow to search by full or partial ID Number
c	Visit Location	<ul style="list-style-type: none"> - Outpatient Pharmacy - Inpatient Pharmacy - General Medicine Clinic - Male Orthopedic Ward - Emergency and Trauma - Obstetrics and Gynecology (O&G) Ward 	Able to filter by visit type
d	Patient Name	Patient Name	Allow to search by patient name
e	Status	Status of patient at the hospital	Allow to search by status either Active or Inactive

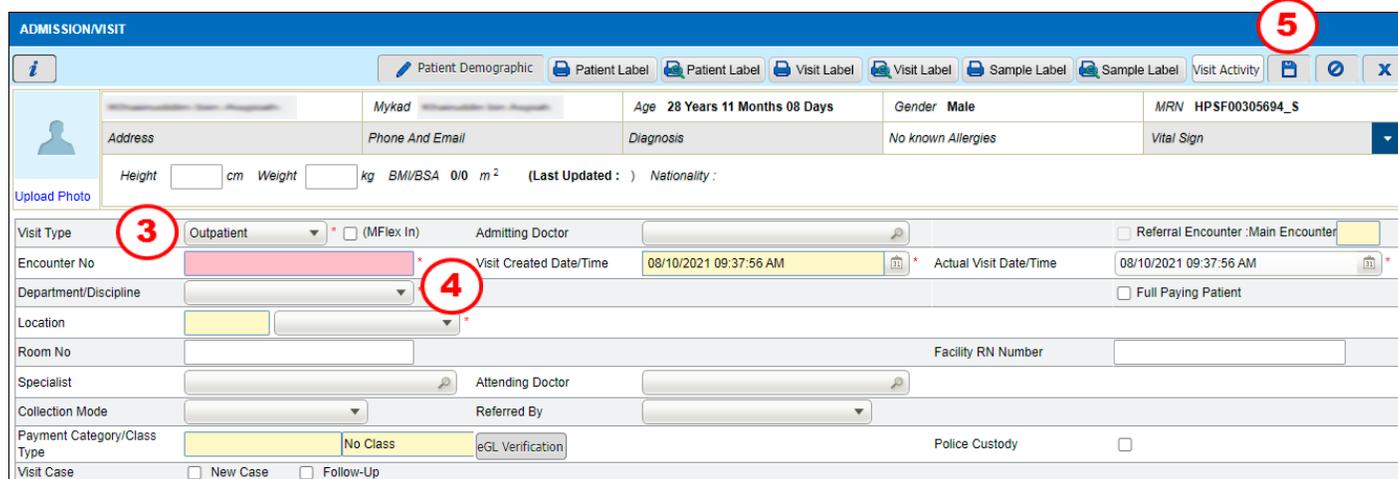

Table 3.3.1-1

STEP 2

Double click on selected patient

Note

- User can enter patient name to narrow down the search. All patient names containing the key word typed will be listed as per Figure 3.3.1-1.
- Multiple visits are allowed for all patient type except for inpatient. Inpatient type of visit needs to be discharged before new visit can be created.

The screenshot shows the 'ADMISSION/VISIT' form. At the top right, there is a red circle with the number '5'. Below the header, there are tabs for 'Patient Demographic', 'Patient Label', 'Visit Label', and 'Sample Label'. The form contains several sections:

- Demographics:** Mykad, Age (28 Years 11 Months 08 Days), Gender (Male), MRN (HPSF00305694_S), Address, Phone And Email, Diagnosis, No known Allergies, Vital Sign.
- Physical Data:** Height, Weight, BMI/BSA, (Last Updated), Nationality.
- Visit Information:** Visit Type (Outpatient, highlighted with red circle 3), Admitting Doctor, Referral Encounter, Encounter No, Visit Created Date/Time (08/10/2021 09:37:56 AM), Actual Visit Date/Time (08/10/2021 09:37:56 AM), Department/Discipline (highlighted with red circle 4), Location, Room No, Facility RN Number, Specialist, Attending Doctor, Collection Mode, Referred By, Payment Category/Class (No Class), eGL Verification, Police Custody.
- Visit Case:** New Case, Follow-Up.

Figure 3.3.1-2 Admission/Visit

STEP 3

System will default to Outpatient in **Visit Type**, but user may change to other **Visit Type** from any of these drop down menu:

- Daycare
- Emergency
- Inpatient
- Outpatient
- Outsource
- PAC
- SPUB
- Walk-in

Note

- *Daycare – for patient to stay at day care ward.*
- *Emergency – for patient to register at emergency department.*
- *Inpatient – for patient admitted to the ward.*
- *Outpatient – for patient visit at outpatient clinic.*
- *Outsource – patient from other facility, come and use services at other hospital.*

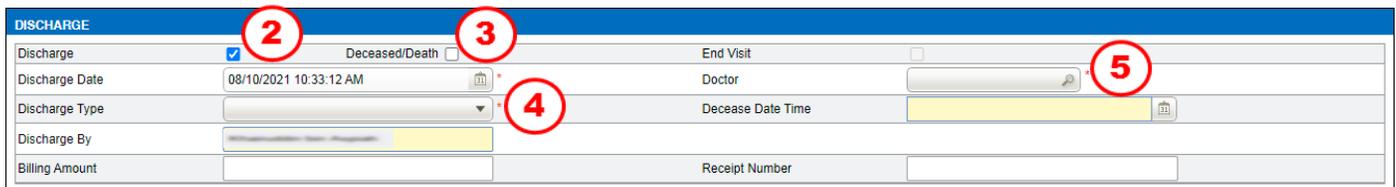

Figure 3.3.4-1 Discharge Patient Screen

Note

Repeat step 1 until 3 as per Transfer Patient section (Page 40-41)

STEP 1

Click on the  to button and scroll down for Discharge section

DISCHARGE

Discharge Deceased/Death End Visit
 Discharge Date: 08/10/2021 10:33:12 AM Doctor:
 Discharge Type: Discharge Date Time:
 Discharge By:
 Billing Amount: Receipt Number:

Figure 3.3.4-2 Discharge Screen

STEP 2

Select the **Discharge** check box

STEP 3

Select the **Deceased/Death** check box

Note

This function is not a sequence after click on Discharge checkbox. After tick on Discharge, user can choose either discharge as deceased or discharge normal (select from drop down Discharge Type). If patient is discharge as deceased, no need to select on Discharge Type. Rephrase back the sequence flows.

STEP 4

Select either one of the these from **Discharge Type's** drop down menu:

- Absconded
- Discharged Home
- At Own Risk
- Referral
- Discharged to ward

STEP 5

Select ***Doctor*** from drop down menu

Note

Only inpatient and emergency patient need to be discharged to stop patient visit.

3.4 Manage Duplicate Record

Those records need to merge into one record due to redundant record; user may use merging to merge patient record into one patient record.

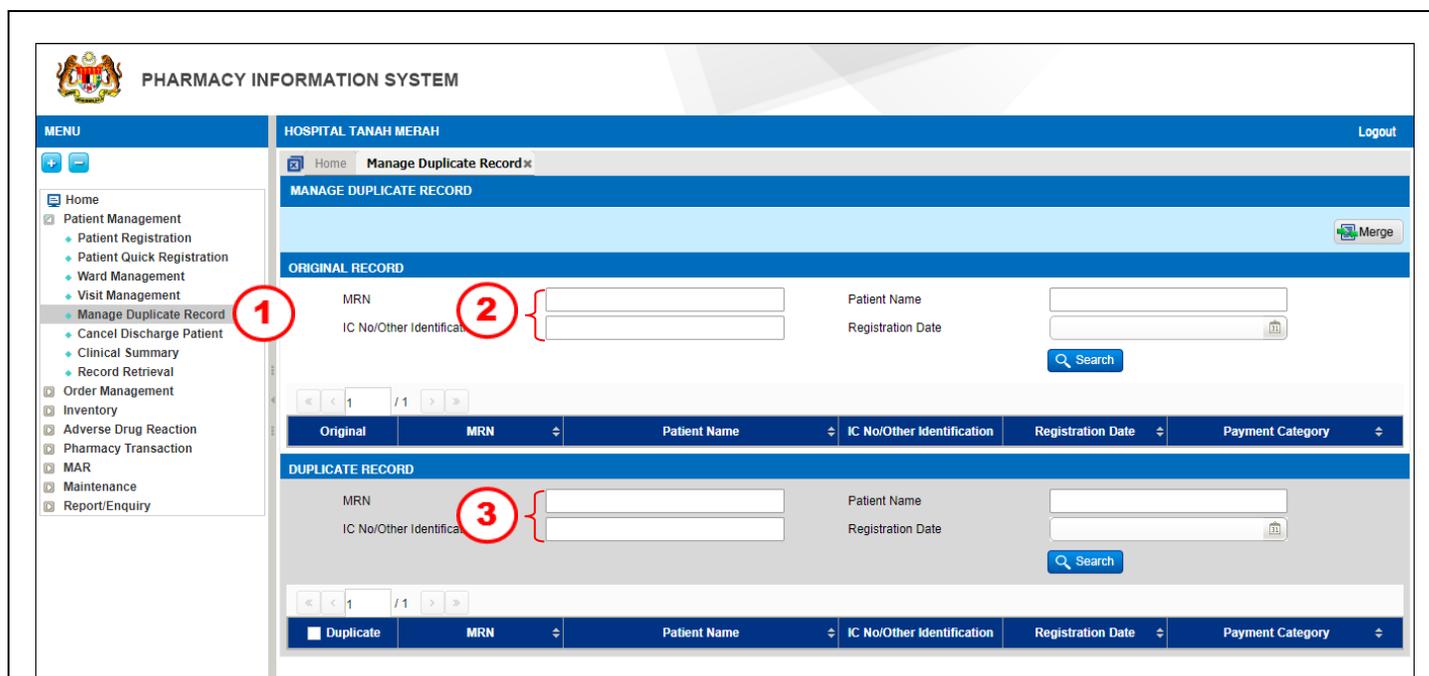

Figure 3.4-1 Merging Record Screen

STEP 1

Click on 'Patient Management' menu and followed by 'Manage Duplicate Records' sub-menu

STEP 2

Search on Original patient section

Note

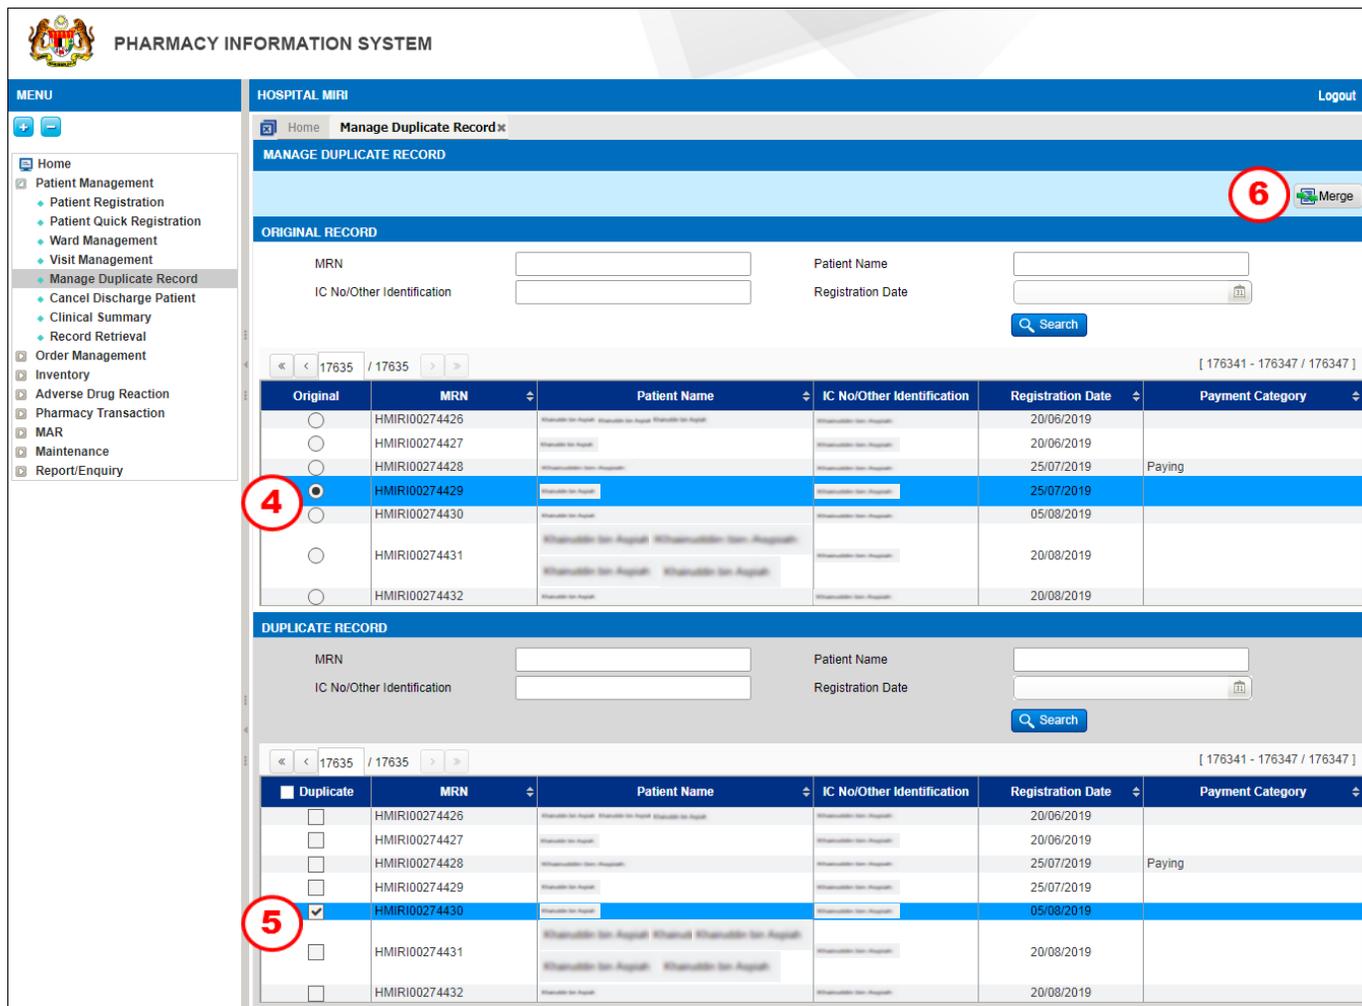

Various search criteria for existing Patient is provided as below:

No	Field	Description	Remark
a	MRN	Patient Medical Record Number	Search option: <ul style="list-style-type: none"> Type the MRN either full or partial: <i>Example : HPSF00001234 or "1234"</i>
b	ID Number	Identification Number	Allow to search by full or partial ID Number
c	Patient Name	Patient's name	Allow to search by patient full name or partial
d	Registration Date	Date of registration	Allow to search by registration date

Table 3.4-1

STEP 3

Search on Duplicate patient section; Refer Table 3.4-1
