1.0 Introduction

1.1. Overview of PhIS

Pharmacy Information System or better known as PhIS is a complete and comprehensive system that integrates pharmacy related services geared towards pharmacy excellence. This implementation would transform most of the current manual process to electronic system to benefit facility end user in the health care sector.

There are 12 modules to assist service delivery by the health care sector which comprises of:

1. Order Management
2. Inpatient Pharmacy
3. Outpatient Pharmacy
4. Medication Counselling
5. Ward Pharmacy
6. Pharmacy Inventory
7. Manufacturing of Cytotoxic Drug Reconstitution, Parenteral Nutrition, IV Admixture & Eye Drop , Radiopharmaceuticals and Extemporaneous
8. Adverse Drug Reaction & Drug Allergic (ADR & DAC)
9. Clinical Pharmacokinetics Services (TDM)
10. Drug Information & Consumer Education (DICE)
11. Medication Therapy Adherence Clinic (MTAC)
12. Data Mining (PhARM)

1.2. Purpose and Objectives

This user manual outlines the Drug Information & Consumer Education (DICE) module and its key features and functionalities. The primary objective is to guide users through the process of completing PhIS application process.

User will understand the following activities in details:

- To place Enquiry or to record Enquiry Request received
- For the Pharmacist to verify and provide response to the enquirer

1.3. Organised Sections

These are the sections within this document:

- Section 1 : Introduction
- Section 2 : Application Standard Features
- Section 3 : Drug Information & Consumer Education (DICE)
- Section 4 : Acronyms
- Section 5 : Link to IWP Modules

3.0 Drug Information & Consumer Education (DICE)

Overview

This module will provide a portal for the hospital community to share and acquire medical related information and advisory knowledge. It also allows user to record enquiries on drug issues and provides information back to the enquirer.

User Group

This module is intended for BPF users (subject to user assigned by the BPF)

Functional Diagram

Figure 3.0

Functional Description

Drug Information comprise of three (3) main functions:

- **New Drug Information record**

To log enquiry online from PhIS users or from the public regarding drugs such as therapeutics, adverse effects, pharmacokinetics, interactions, drug identification and availability, drug administration, pharmaceuticals and pharmacy administration.

- **Drug Information Response**

To enter and verify the response towards the enquiries received. All responded enquiries will be pushed to the HQ and to be submitted in KYM website or/and PhIS Portal.

- **View Responded Enquiry**

Enquirer will be able to view the response from the Pharmacist regarding the enquiry made.

3.1 New Drug Information record

This function is used to create a new Drug Information record

3.1.1 Drug Information Listing Page

This function is used to display all the existing Drug Information transaction(s).

Drug Information Request No.	Enquiry Date Time	Priority	Enquirer	Designation	Enquiry Category	Enquiry Status
DI19001001	11/07/2019		ADMIN	Pegawai Farmasi UF41	MOH Health Care Provider	Requested
DI19001007	16/07/2019		ADMIN	Pegawai Farmasi UF41	MOH Health Care Provider	Requested

Figure 3.1.1-1 Drug Information Listing Page

Note

- This module will be used by all the user with PhIS user ID
- User is allowed to view a list of Drug Information records on the listing page depending on the user's access rights

STEP 1

Click on 'Drug Information' Menu then sub menu 'Drug Information'

STEP 2

To search for existing Drug Information transaction, user can search by criteria as follows:

No	Field	Description	Remark
a	Drug Information Request No.	The number is generated when user saves a newly created Drug Information record	Enter partial or full criteria for Drug Information Request No. Filter and search existing records based on the Drug Information Request No.
b	Priority	Select Priority from the drop down menu: - All - Medium [within 24 Hours] - Routine - Urgent [within 2 Hours]	If the Priority is enter in a newly created Drug Information record, user will be able to search using Priority as the criteria
c	Request Category	Select Request Category from the drop down menu: - All - Administration - Adverse Effect - Availability/Substitutes - Contraindication - Cytotoxic Drug - Dose range of frequency	If the Request Category is enter in a newly created Drug Information record, user will be able to search using Request Category as the criteria

		- Drug Formulation - Drug-Interaction - Drugs Compatibility - Drug use -Preg/Lact - Drug use - Renal / Hepa - Efficacy - Identification - Indication - Overdose - Parenteral Nutrition - Pharmacokinetic - Pharmacy Legislation - Poisoning - Therapeutic Drug Monitoring - Therapeutic use - Treatment Regime	
d	Enquiry From	Enter Department/Unit Name or Facility Name	Filter and search existing records based on the Enquiry From
e	Enquiry Status	• Select Status from the drop down menu if the logged in user is the Pharmacist: - All - Verified - Requested - Responded • Select Status from the drop down menu if the logged in user is other than the Pharmacist: - All - Requested - Responded	Filter and search existing records based on the Enquiry Status
f	Patient Name	Patient's name	Allow to search by patient full name or partial
