APPENDICES:

Appendix 1: Data Centre (DC) / Disaster Recovery Centre (DRC) PM Sample Report

Appendix 2: PM Sample Report

Appendix 3: Mapping of Appendix 27 & Samples

1. Purpose

This document provides the guidelines for PhIS & CPS Preventive Maintenance at Data Centre (DC), Disaster Recovery Centre (DRC) and facility. It contains activities to be performed at designated location and the required documentation to be filled up before, during and after the activity.

This guideline is recommended to be read and understood by the appointed Facility Coordinator or officer in-charge of IT hardware asset at the facility that managing facility asset, and it should be read together with PhIS and CPS Helpdesk & Maintenance document.

2. Hardware Maintained

The hardware to be maintained at each facility is depending on the approved allocation endorsed by PhIS & CPS project committee. Depending on the approved allocation, the type of hardware being installed at DC,DRC and facility as follows:

No	List of Hardware
1	Server
2	Storage *
3	Uninterrupted Power Supply (UPS)
4	Desktop PC
5	Notebook *
6	LaserJet printer
7	Thermal Transfer printer
8	QMS printer *
9	Mobile Handheld device *
10	Wired scanner *
11	Tablet *
12	Core switch *
13	Distribution switch *
14	Access Point *
15	Wireless Bridge *
16	Load Balancer *
17	Link Controller *
18	Firewall *

Note: Hardware marked with * indicates for selected facility only.

* For complete hardware specification, do refer to Helpdesk & Maintenance Document v1.5.

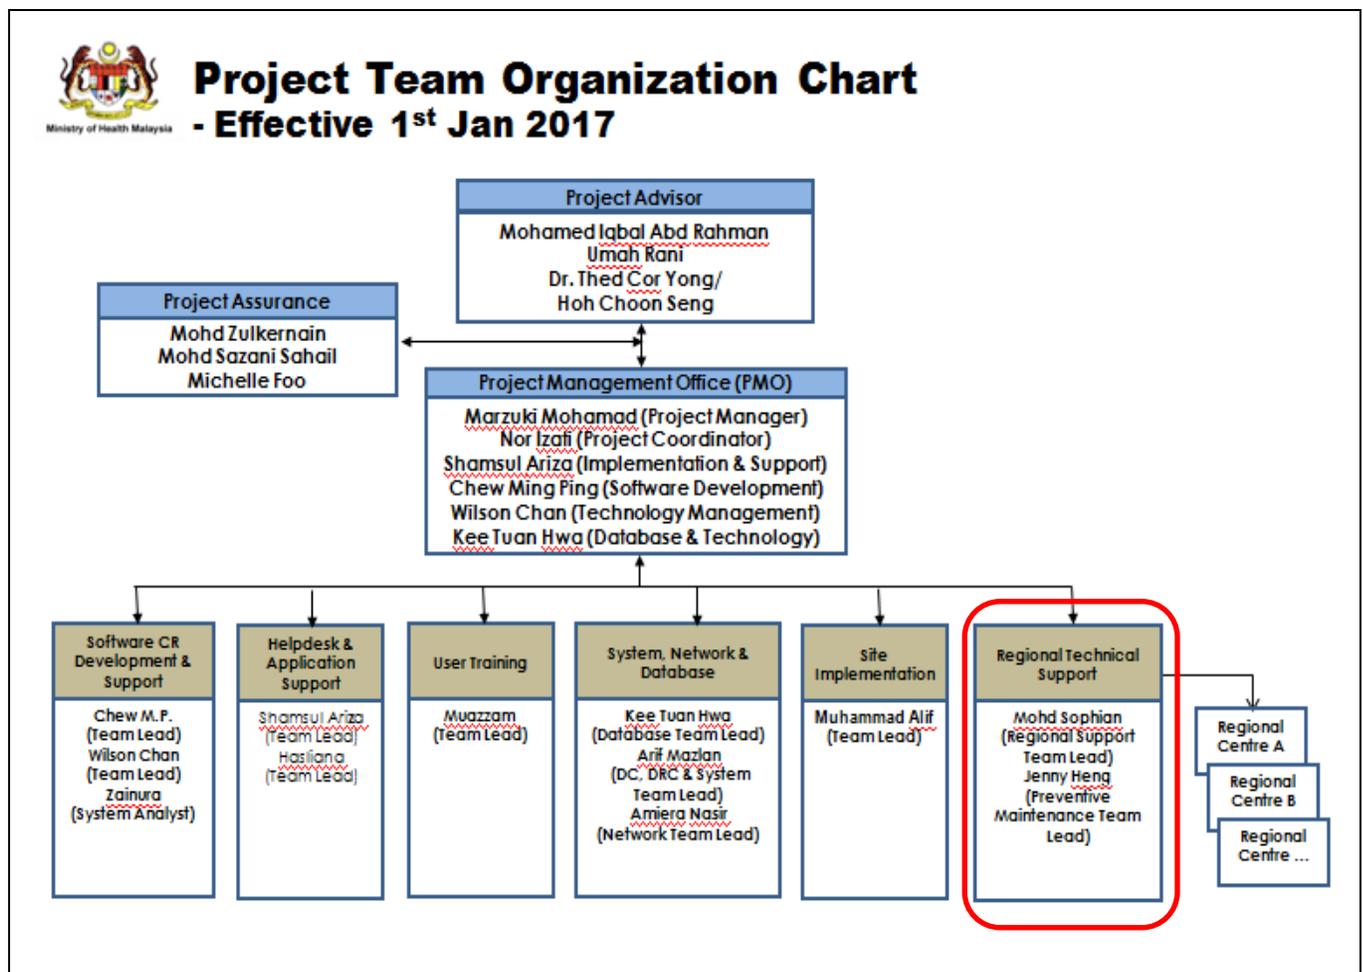

* For detailed hardware inventory listing, do refer to ConnectManage(CM) in “Asset Management

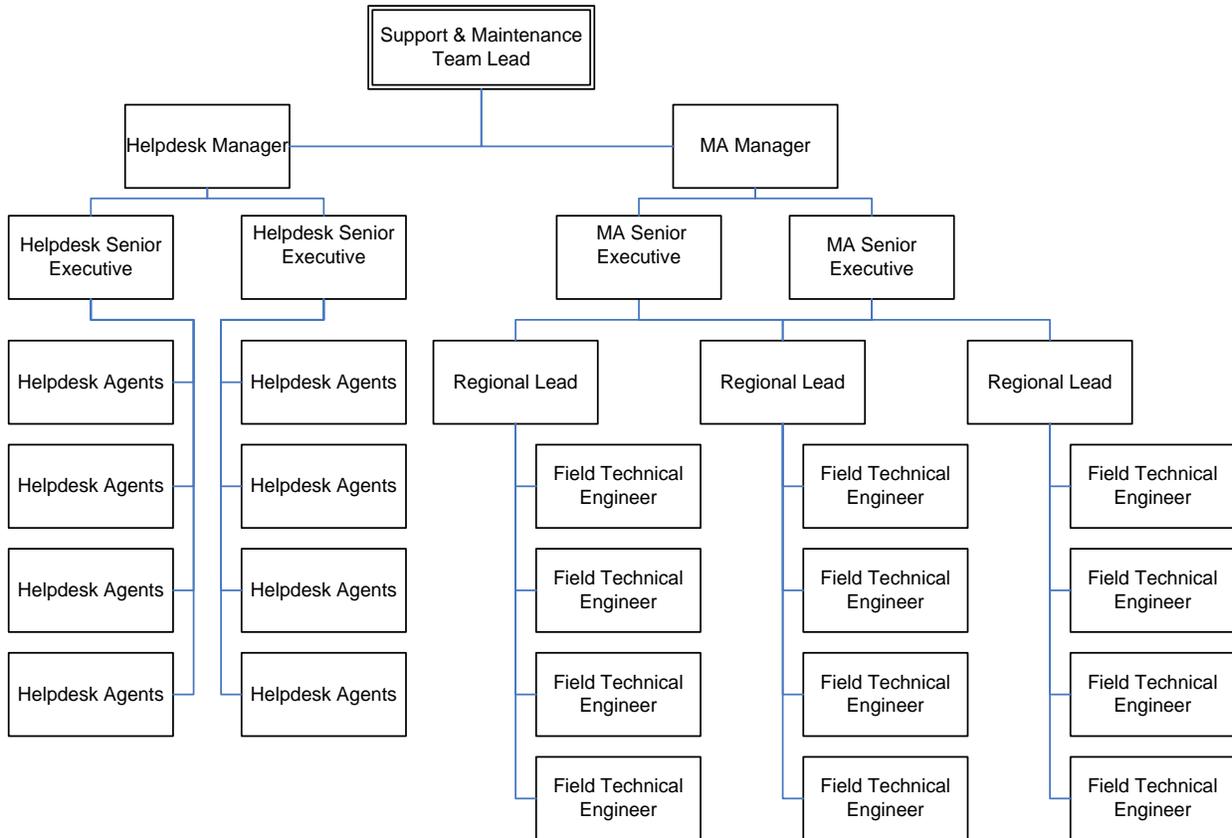

Report”

3. Team Structure and Responsibility

P.M Team is a team formed to be responsible for the P.M including reporting and progress updates and record consolidations of PM findings. There will be a minimum of 2 pax in a team (depend on the facility size). For DC & DRC, the team will conduct the activity under IT BPF supervision, verification and acceptance while for other facility; this will be supervised, verified and accepted by IT or Pharmacist.

The team structure as below and the PM Team is part of the Regional Technical Support.

4. Standard Tools and Peripherals

Below is the standard tool & peripherals for every PM activity.

- Hardware Inventory List
- PM Checklist forms
- Anti-static & cleaning cloth
- Screwdriver set
- Portable vacuum cleaner
- LCD & Hardware fluid spray
- Mouth & Nose protective gear (if needed)
- Hand gloves (if needed)
- Ladder (For AP and Network switch physical checking)
- P.M labels (2 P.M per year)
- Asset Tagging labels (If the existing labels have to be replaced)
- Notebook / Tablet (for server, switch, AP & wireless bridge configuration check)

5. Scope of Work

1. Standard scope of work

The PM team will perform a repeating tasks for every PM as below;

- I. Cleanup of physical hardware.
- II. Check details and location of the hardware.
- III. Capture details of resources.
- IV. Check the standard hardening and configurations.
- V. Record any relocation or missing hardware.

2. Scheduled scope of work

The PM team will perform a pre-planned activity that is not in the standard scope as for example below;

- I. Firmware updates.
- II. Application patches and tuning.
- III. DB patches and tuning.
- IV. Upgrade of OS or any related system application.

6. Preventive Maintenance Procedure

The Preventive Maintenance activity will be done following the below process.

1. Pre Preventive Maintenance

- i. A complete P.M schedule has to be presented to facility and the project team.
- ii. Facility will then approve the proposed schedule (including the latest Hardware Inventory List) before the activity can take place. If there is a need for changes, facility will propose a new schedule and this will be notified to PLSB and project team.
- iii. All hardware summary list and hardware inventory list will be printed out from ConnectManage.
- iv. Compilation of all the P.M documents needed beforehand. The documents as below:
 - P.M activity letter
 - Approved P.M Schedule
 - Hardware Summary list
 - Hardware Inventory list
 - P.M Checklist forms

*Example as in Appendix 1.

2. During Preventive Maintenance

- i. On the 1st day, there should be a quick briefing on the regulation and SOP of the facility by the person in charge –appointed Facility Coordinator (Asset Manager / IT personnel / Pharmacists / Representative) to the P.M team.
- ii. PM team should always be in proper attire when conducting the activity.
- iii. Facility Coordinator to facilitate the P.M team throughout the P.M activity.
- iv. Daily activity update by P.M Team:
 - Update facility before starting the activity in the morning.
 - Update facility on the progress by end of the day / week as mutual agreed.
- v. P.M Team must compile the daily progress and update the facility (daily) and the project team (Bi-Weekly Meeting).
- vi. Always ask for user permission before attending to the hardware.
- vii. End user/Facility representative have to verify the activity being carried out and sign the P.M checklist forms. The checklist has to be filled thoroughly.
- viii. P.M team must report any findings on the hardware movements or hardware that is missing and inform the Facility Coordinator responsible to manage facility asset or officer in-charge of IT hardware asset; to update their record and will log the case to Helpdesk (if applicable).
- ix. Any hardware fault found during the P.M activity, the P.M team will log the case to Helpdesk and escalate to the support team.
- x. The hardware will be tagged as below to ensure that P.M has been done on the particular hardware.

Kementerian Kesihatan Malaysia	
Current PM Date	dd/mm/yyyy
Next PM Due	dd/mm/yyyy
Hak Kerajaan Malaysia	

3. Post Preventive Maintenance

- i. Once the Preventive Maintenance is completed, the below documents will be distributed to Facility:
 - Execution of Preventive Maintenance (EPM)
 - Preventive Maintenance Report including :
 - a. Findings during Preventive Maintenance activity.
 - b. Recommendations/ actions e.g. any upgrades or tunings required.
 - Compilation of all completed P.M checklist forms.

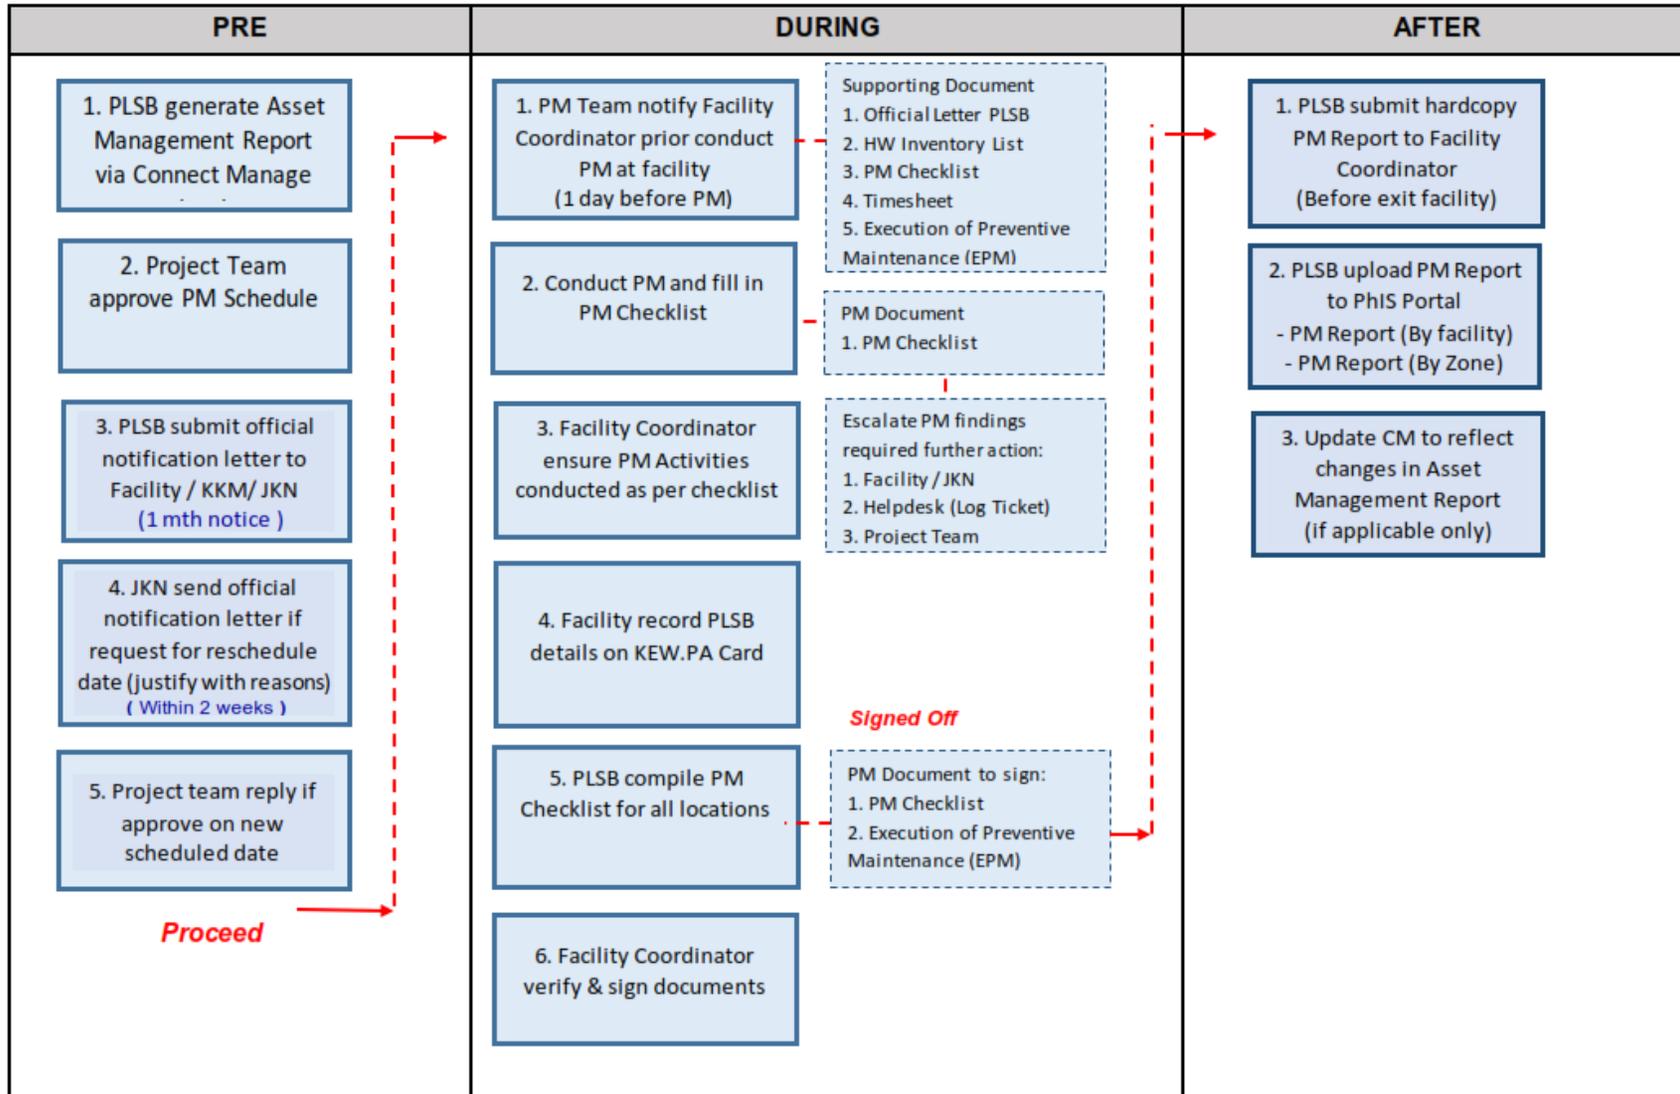

- ii. Any issue highlighted shall be highlight or report to project team for further action. Asset shall be under the custodial of facility. Any further action in relate to asset shall be the responsibility of facility.
- iii. To inform and update project team on the completion of the P.M activity during project meeting.
- iv. Facility Coordinator shall be the main contact person for respective facility during PM activities.

*Example as in Appendix 2.

7. Preventive Maintenance Process Flow

PREVENTIVE MAINTENANCE - PROCESS FLOW

PM Key Resources – Term of Reference (TOR)

	No	Work Process	Responsible By
PRE – PM	1	Generate latest Asset Management Report through ConnectManage(CM)	PLSB
	2	Submit PM Schedule to project team for approval	PLSB
	3	PLSB submit PM notification letter to Facility , carbon copy to KKM & JKN and to be attach with supporting document: <ul style="list-style-type: none"> • Hardware Inventory Summary List • Approved PM Schedule (By Zone) <i>*Timeline - 1 month before PM activities start</i>	PLSB
	4	JKN to send official notification letter if any request from facility on change of PM date – to provide reasons and proposed new date. <i>* Timeline - within 2 weeks upon receiving PM notification letter</i>	PLSB
	5	Project Team shall reply on top of email notification sent by Project team; if request of rescheduled PM date is approved , otherwise consider rejected and facility has to proceed as per scheduled plan.	MOH / PLSB
DURING - PM	1	PLSB to contact & notify Facility Coordinator prior conduct PM on site. <i>*Timeline – 1 day before PM activities</i> Facility Coordinator to conduct briefing on the regulation and SOP of facility to PLSB team when on-site.	PLSB Facility
	2	PLSB team require to fill in PM Checklist during execution of PM activities at respective User location. Escalation of PM findings that required further advise or action shall be compile & highlight to below parties accordingly: <ul style="list-style-type: none"> a. Facility / JKN or b. Helpdesk - Log Ticket (where necessary) or c. Project Team 	PLSB
	3	Facility Coordinator to ensure PM activities conducted as per PM checklist	Facility
	4	Facility to update & record PM activities details on KEW.PA card (Rekod Penyelenggaraan Aset Alih)	Facility
	5	All PM Checklists will be compiled by PLSB and submit to Facility Coordinator for verification & Sign off: <ul style="list-style-type: none"> • Preventive Maintenance Checklist • Execution of Preventive Maintenance (EPM) 	PLSB Facility

	No	Work Process	Responsible By
AFTER - PM	1	PLSB shall submit PM Report (By Facility) to Facility Coordinator (Hardcopy) <i>*Timeline – before PLSB team exit facility</i>	PLSB
	2	PLSB upload PM Report to PhIS Portal (Softcopy) a. PM Report (By Facility) b. PM Report (By Zone) <ul style="list-style-type: none"> All Facilities' summary findings within the zone <i>Timeline – within 2 weeks upon completion of PM by Zone</i> 	PLSB
	3	PLSB update CM to reflect changes in Asset Management Report (If applicable only)	PLSB
	4	PLSB update Project Team on PM summary progress in project meeting	PLSB

8. Report mechanism

PM Report (By Facility) & PM Report (By Zone) will be uploaded into PhIS Portal by PLSB; and shall be accessible by MOH (project team), JKN & Facilities. The hardcopy PM Report (By Facility) shall be distribute to facility before PM Team exit facility.

The timeline for report to upload to PhIS Portal will be 14 Days (2 weeks) after the last sign off date for the said state's zone and not by facility, subsequently within another 14 Days (2 weeks) for facility to verify facility asset vs. PM report.

During the PM execution, a summary of the progress will be presented in PhIS Bi Weekly Meeting.

9. Support

If there are any failures of hardware during the PM, it is advised for PM team or facility user to log a ticket to PhIS & CPS Helpdesk for recording and escalation to support team.

Any problems or issues encountered after the completion of preventive maintenance shall be escalated to PhIS& CPS Helpdesk for recording and resolution.

The toll-free number is 1-800-22-9322.

10. Acronyms

Abbreviation	Definition
MOH	Ministry of Health
PLSB	Pharmaniaga Logistics Sdn Bhd
Facility	Hospital, PKD, KK, JKN, BPM, BPF, MUSN, MUSB, PBFN
PhIS	Pharmacy Information System
CPS	Clinic Pharmacy System
P.M	Preventive Maintenance
EPM	Execution of Preventive Maintenance
QC	Quality Control
CM	ConnectManage (Customer Service & Helpdesk System)
DC	Data Centre
DRC	Disaster Recovery Centre

1. Network Trend Analysis

Network Activity (Network Trend Analysis) Report

Report time frame: August 01, 2016 12:00 AM - August 31, 2016 11:59 PM

Gateway: All log sources

Action: Accept, Bypass, Decrypt, Encrypt, Inspect, VPN Routing

Product: VPN-1 Power/UTM, UTM-1 Edge

Report generated at: September 06, 2016 09:39 AM

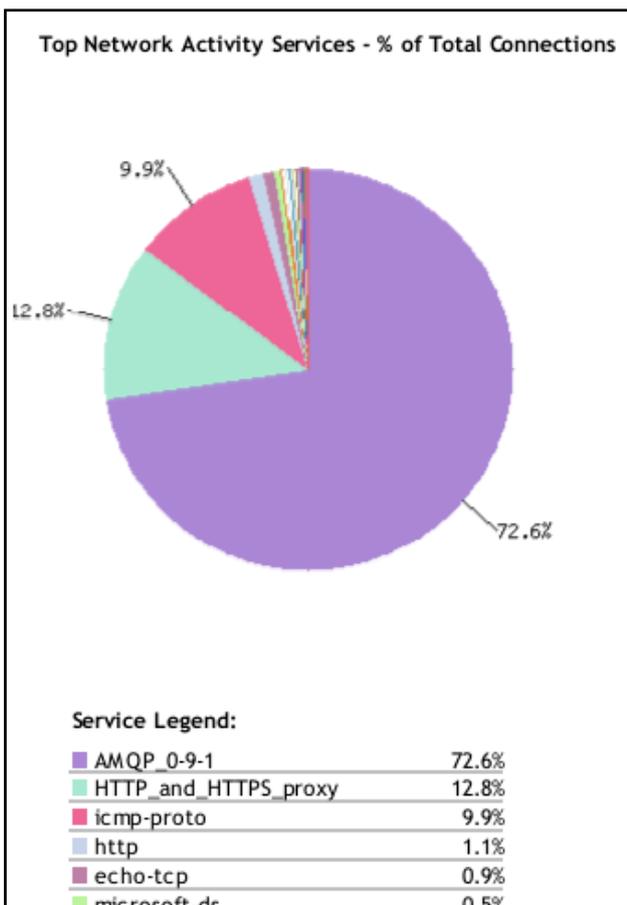

Database table: CONNECTIONS

This report presents data about traffic accepted by Firewall at PhIS Data Centre. It summarized the overall network activity and trend for the month of AUGUST 2016.

This report can be used to view network activity in order to determine effective usage and normal working condition of PhIS network infrastructure services.

Specific sections include information regarding

- * overall traffic characteristics as well as a breakdown by hour and by date
- * the top network users
- * top services used
- * top sources and top destinations of network traffic

Top Network Activity Services			
Index	Service	Traffic Size	
		Number of Connections [Thousands]	% of Total Connections
1	AMQP_0-9-1	84,060.20	72.56%
2	HTTP_and_HTTPS_proxy	14,799.16	12.78%
3	icmp-proto	11,521.22	9.95%
4	http	1,326.84	1.15%
5	echo-tcp	1,003.31	0.87%
6	microsoft-ds	582.74	0.50%
7	https	469.50	0.41%
8	tcp/8686	408.55	0.35%
9	MySQL	302.27	0.26%
10	snmp	283.16	0.24%
11	tcp_8180	248.39	0.21%
12	tcp/657	110.35	0.10%
13	ntp-udp	94.68	0.08%
14	tunnel_test	94.09	0.08%
15	sqlnet2-1521	91.35	0.08%
16	ldap	90.72	0.08%
17	tcp_4848	90.26	0.08%
18	Napster_directory_8888_primary	69.38	0.06%
19	udp/16	55.00	0.05%
20	ssh	39.37	0.03%
Others (1206)		102.94	0.09%
Total (1226)		115,843.46	100.00%
Average		94.49	0.08%

2. Network Utilization

Subject: Monthly Network Capacity Planning – Year 2016

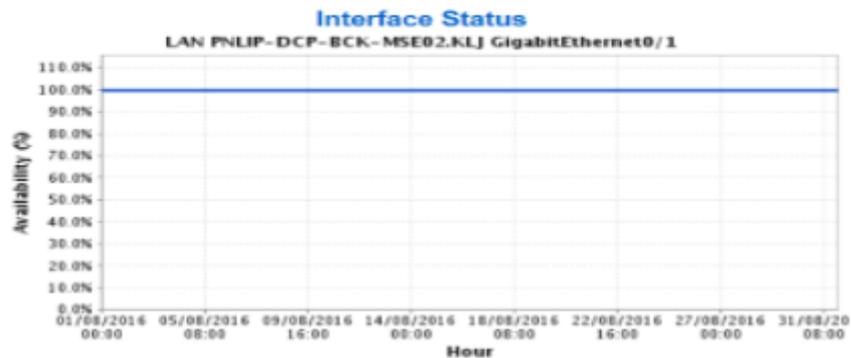

Report time frame: August ,2016

This report can be used in determining network resources required to prevent a performance or availability impact on business-critical applications.

Specific sections include information regarding:

- IPVPN HQ Bukit Raja
- IPVPN DRC Cyberjaya
- IPVPN Hosp Sri Manjung
- IPLite KK. Buntong
- IPLite KK. Kg. Simee
- IPLite KK. Tanjung Rambutan
- IPLite KK. Jelapang
- IPLite KK. Chemor
- IPLite KK. Tronoh
- IPLite KK. Tanjung Tualang
- IPVPN Hosp Miri
- P2P Metro E HQ Bukit Raja- DRC Cyberjaya

IPVPN 10Mbps SLG99.5% : HQ Bukit Raja

3. Performance Monitoring System

Subject: Monthly Monitoring Report

This report presents information about monitoring data for PhIS project. It represents the overall performance and utilization by meaning of CPU and Memory of the server for the current month.

Overall the systems are operating optimally.

Resource Utilization for the month of XXX

Johor						
Hospital Pakar Sultanah Fatimah						
Hostname	CPU Utilization			Memory Utilization		
	Avg	Min	Max	Avg	Min	Max
phishpsfsrv1	2.26%	0.06%	43.62%	17.36%	3.02%	84.92%
phishpsfsrv2	1.21%	0.19%	90.27%	25.24%	3.59%	75.28%
KK Bandar Maharani						
Hostname	CPU Utilization			Memory Utilization		
	Avg	Min	Max	Avg	Min	Max
cpsmaharani	1.42%	0.02%	36.37%	13.66%	4.32%	42.31%
KK Bakri						
Hostname	CPU Utilization			Memory Utilization		
	Avg	Min	Max	Avg	Min	Max
cpsbakri	1.31%	0.26%	49.43%	12.55%	6.78%	67.24%

4. Disk Space Usage Statistics

Subject: Monthly Postgres Database (PHIS & CPS Facilities) Trend Analysis Report – August 2016

This report can be used to view database Utilization in order to determine effective usage of resource. Specific sections include information regarding

- Database service
- Connection count
- Committed transaction
- Database size

Enclosed is the Monthly Database Utilization Report for August . The report highlights on the following site(s):

No	Group	Facilities
1	HPSF	KLINIK KESIHATAN bakri
2	HPSF	KLINIK KESIHATAN bandarmaharani
3	Johor	Hospital Tangkak
4	Johor	KLINIK KESIHATAN bekoksvr
5	Johor	KLINIK KESIHATAN air tawar2
6	Johor	KLINIK KESIHATAN ayerhitam
7	Johor	KLINIK KESIHATAN bagan
8	Johor	KLINIK KESIHATAN bandar mas

PhIS DC Oracle Database Utilization Monthly Report (Zabbix Data) August 2016												
Server	Instance	Database Service		User Transaction Per Second		Cache Hit Ratio > 90%		DB Size		Tablespace
