

### Summary of Ticket Number and Requests for Inventory Module – Indent Intra Facility and Inter Inter Facility

No.	Ticket #	Description	Requests	Solution
1.	220008241E	<p><b><u>Request to block indenting for user level 3 once exceed maximum storage quantity</u></b></p> <p>Request to block indenting for user level 3 once exceed maximum storage quantity. To prevent level 3 end user from exceeding max storage amount and reduce bad data in system.</p>	User request block indenting for user level 3 once exceed maximum storage quantity	1. User will not be allowed to proceed with indenting if have exceed the maximum storage quantity
2.	210007640E	<p><b><u>Sekatan inden kuantiti ubat dari wad/unit</u></b></p> <p>Mohon pihak PHIS menyekat inden dari wad/unit kepada maximum stok yang dibenarkan sahaja. Sebelum PHIS version v2.5.1.2, wad/unit hanya boleh inden ubat mengikut kuantiti yang dibenarkan sahaja. tidak boleh lebih daripada max stok yang dibenarkan. version v2.5.1.2 telah mlakukan perubahan di mana wad/unit boleh inden jumlah ubat sesuka hati.</p>		
3.	220008920E	<p><b><u>Better control stock in Level 3</u></b></p> <p>Referring to CR R200097, changes has been made to allow indent when the stock is whether less or more than Min &amp; Max Stock. This has make user do not do consumption before New indent as they can order even when the current stock has reached over the Max stock limit. the implication of not limiting the Max Stock is stock will be accumulating in Level 3 especially ward/clinics.</p>		
4.	230011952E	<p><u>Indent - UAT PhIS 2.6.2</u></p> <p>"To add new data field (view only) at Add Indent Item :</p> <p>1) Back Order Quantity 2) Pending Receive Quantity</p> <p>*Before Save and during select drug"</p>	User request to add Back order quantity and Pending to Receive quantity at add item screen	1) At Indent Intra and Indent Inter(Add item screen) add 2 new field as below: I. Back Order Quantity II. Pending to Receive Quantity
