

1. Summary of Ticket Number and Requests on Search Original Prescription Serial Number

No.	Ticket #	Description	Requests	Proposed Solution
1.	I-PHIS013737516S	<p>Transcribe order - Able to search record from Original Order Transaction Number</p> <p>User request to search prescription using Original Order Transaction Number due it compulsory when do transcribe.</p>	<p>User should be able to search patient using original prescription serial number (for pharmacy based only).</p>	<ol style="list-style-type: none"> 1. Original RX No -->change label to Original Prescription Serial Number which apply to all screens (Rec Retrieval, Manage Order, Single Stage, Screening (OPIP), Preparation (OPIP), Dispensing (OPIP), Single Stage (OP)) 2. Rec Retrieval - add column Original Prescription Serial Number and search criteria. 3. Manage Order - add column Original Prescription Serial Number and search criteria. 4. Screening - add column, label for Original Prescription Serial Number and search criteria. 5. Preparation - add column, label for Original Prescription Serial Number and search criteria. 6. Dispensing - add column, label for Original Prescription Serial Number and search criteria. 7. Single Stage - add column Original Prescription Serial Number and search criteria.

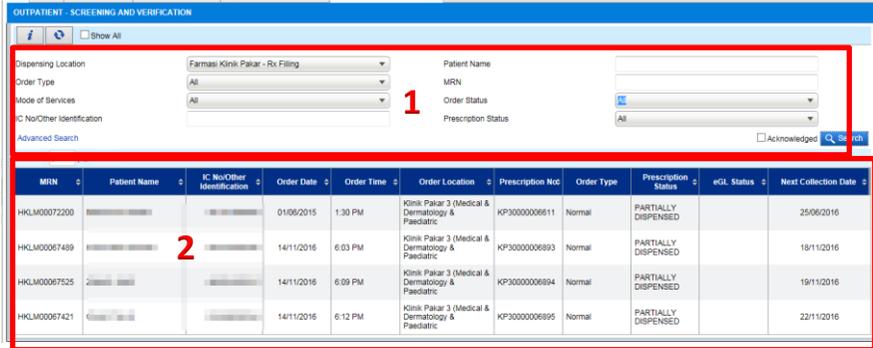

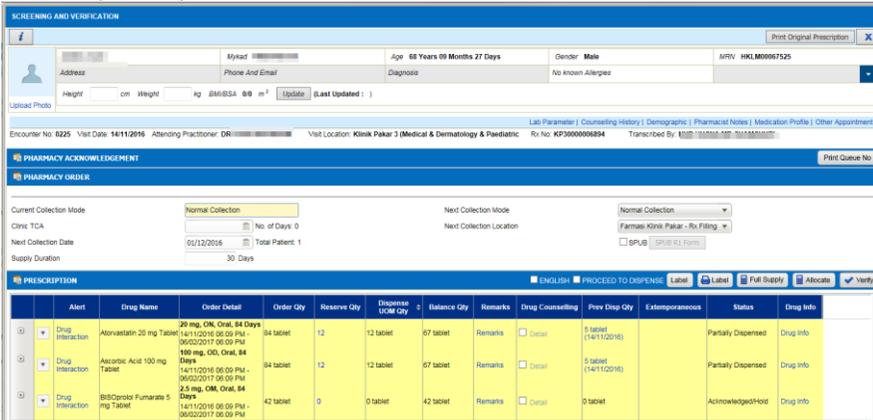

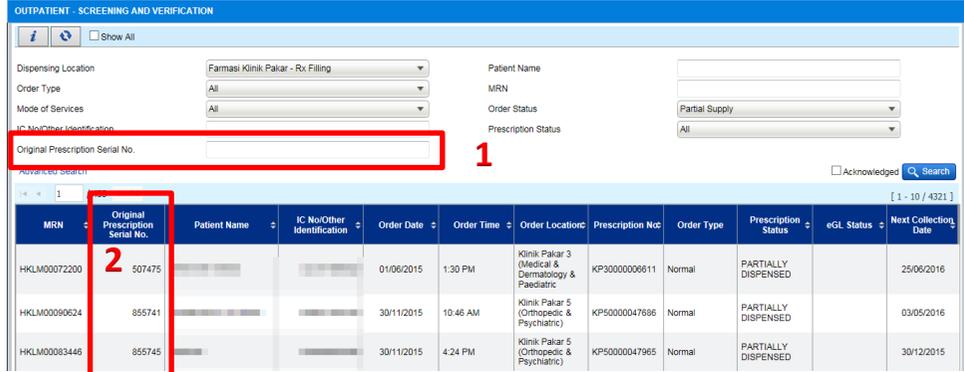

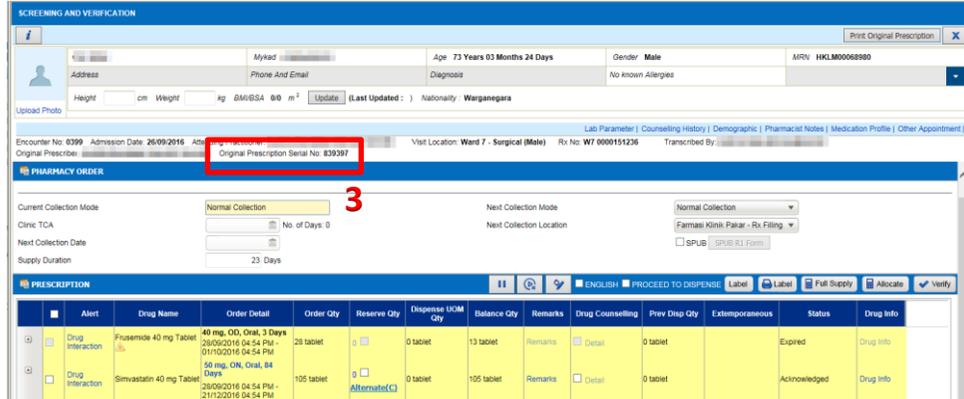

PHIS & CPS Project - Quick Guide For OPIP – Search Original Prescription Serial Number

Function Flow	Current Version 1.4.1	New Version 1.5
<p>1. Record Retrieval - search original prescription serial number</p>	<ul style="list-style-type: none"> Go to Patient Management>Record Retrieval screen and search the patient by <u>Patient Name(1)</u>.  <ul style="list-style-type: none"> Then click on <u>Search(2)</u> button. Once patient name appear, double click on the patient record. Patient record will be listed as below.  <ul style="list-style-type: none"> Click on <u>Search(3)</u> button to view the patient details.  <ul style="list-style-type: none"> Patient prescription details will be display but not showing any original prescription number. 	<ul style="list-style-type: none"> Go to Patient Management>Record Retrieval screen and search the patient by Patient Name(1).  <ul style="list-style-type: none"> Then click on <u>Search(2)</u> button. Once patient name appear, double click on the patient record. Patient record will be listed as below.  <ul style="list-style-type: none"> Click on <u>Search(3)</u> button to view the patient details.  <ul style="list-style-type: none"> Patient prescription details will be display and showing original prescription number as a <u>search criteria(4)</u> and in a <u>column(5)</u>.
