

1. Summary of Request for Actual Visit Date

| No. | Ticket # | Description | Requests | Proposed Solution |
|-----|----------------------|---|--|---|
| 1. | I-PHIS0123 63915S | <p><u>Patient Visit - Request to allow back dated admission</u></p> <p>User request system to allow back dated patient admission. Currently it is automatically follow the system date and time.</p> <p>User's scenario: If patient admitted during weekend, registration and admission will only be done in system on Monday due to Pharmacist not working on weekend. In fact, patient has been physically admitted on Sunday.</p> | Allow backdate for date of registration. | <p>Backdate visit for patient registration:</p> <ol style="list-style-type: none"> 1. Allow user to capture actual visit date when create visit. 2. Visit date will remain as current date (non-editable) but need to introduce new field to capture the actual visit date. <p>*For this case, it should not allow backdate prescription.</p> |
| 2. | I-PHIS0129 65815S | <p><u>Patient Management - Request to edit date and time</u></p> <p>User request that the date and time for create visit and register patient can be edit so that if got system maintenance, the user can register according to the actual date and time.</p> | Allow backdate for date of registration. | |
| 3. | I-PHIS0134 41316S | <p><u>Patient Registration - Request to edit date/time</u></p> <p>User request to edit date/time for patient. User ask it because when system PHIS hang/down, so then can enter patient details tally with patient details on VMedic.</p> | Allow backdate for date of registration. | |
| 4. | I-PHIS0179 02817S | <p><u>Patient Registration - Request to edit date/time</u></p> <p>User request to edit Date/Time at Patient Registration. Example from user:</p> | Allow backdate for date of registration. | |

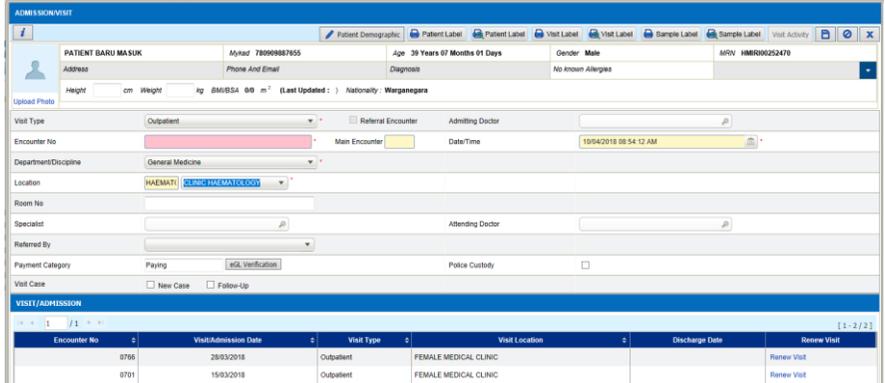

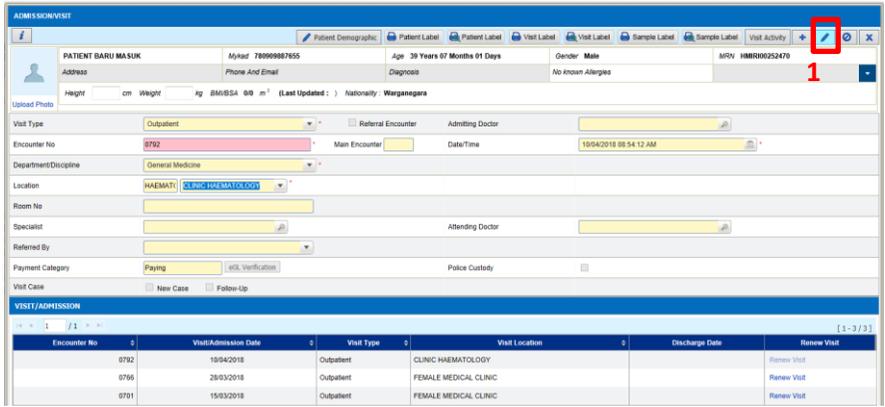

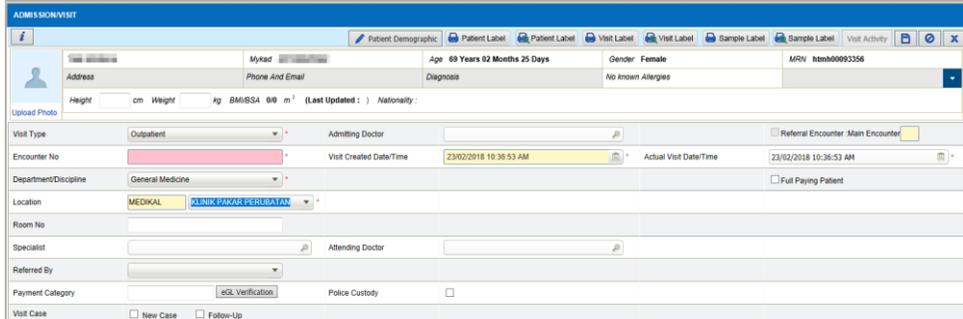

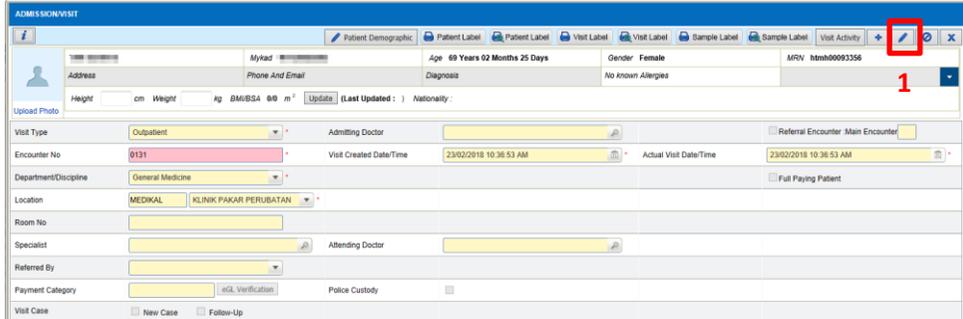

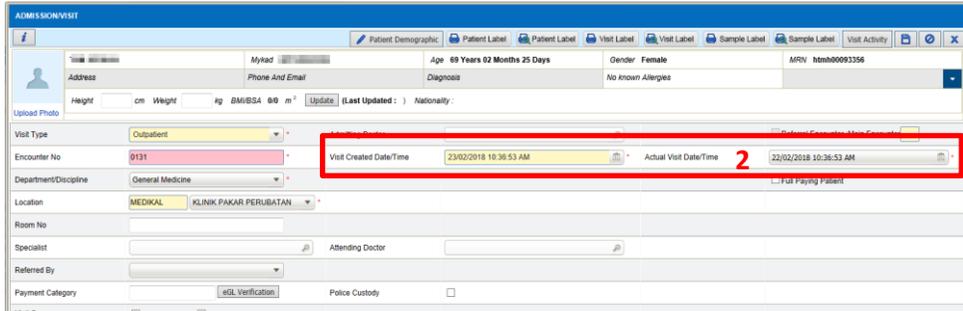

| No. | Ticket # | Description | Requests | Proposed Solution |
|-----|--------------------------|---|--|-------------------|
| | | <p>1) Patient admit to ward on 16/1/2017 but user do not registry patient at the same date and time.</p> <p>2) User make registration for patient in system and choose the date on 18/1/2017</p> <p>3) After save details, the date/time for patient registration recorded as 18/1/2017</p> <p>4) User request for patient that already make registration and save the details in system, she able to re-edit the date and key in the date as back date (16/1/2017).</p> | | |
| 5. | I- PhIS018593 417S | <p><u>Admission/Visit - Unable to back dated registration</u></p> <p>Received email form user:</p> <p>I am just wondering if the admission date of a patient can be back dated. Currently, admission date of the patient will be automatically the same as the registration date of the patient. If the patients admitted into the ward during the weekends, ward pharmacists will not be able to register the patient on that date and will only be able to do so on the next working day. Is it possible to back date the admission date - that means if patient is admitted on 25th March and ward pharmacist to register the patient on 27th March, will the pharmacist able to back date the admission date to 25th March</p> | Allow backdate for date of registration. | |

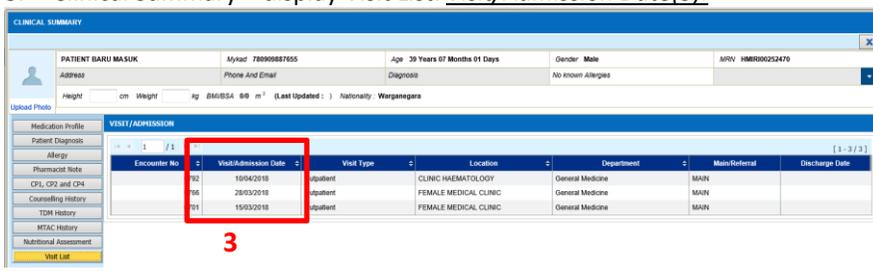

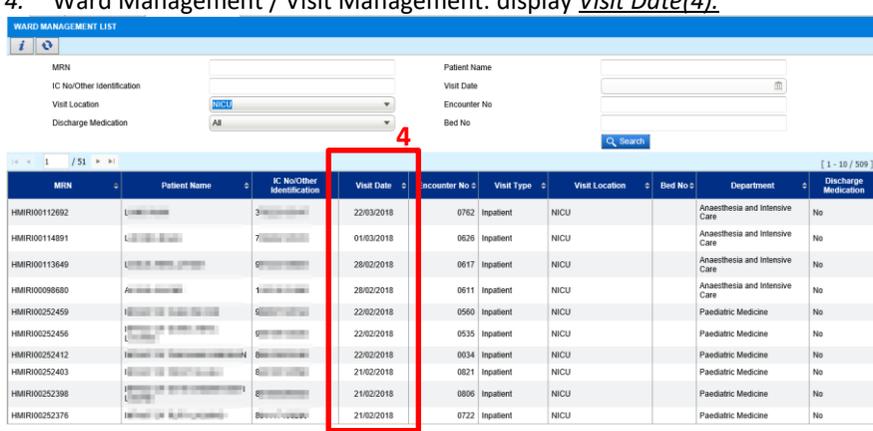

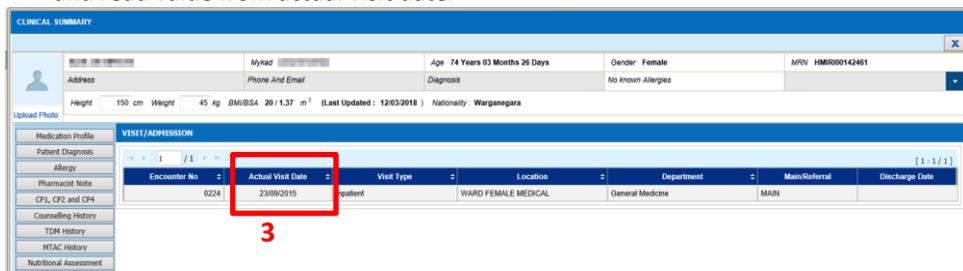

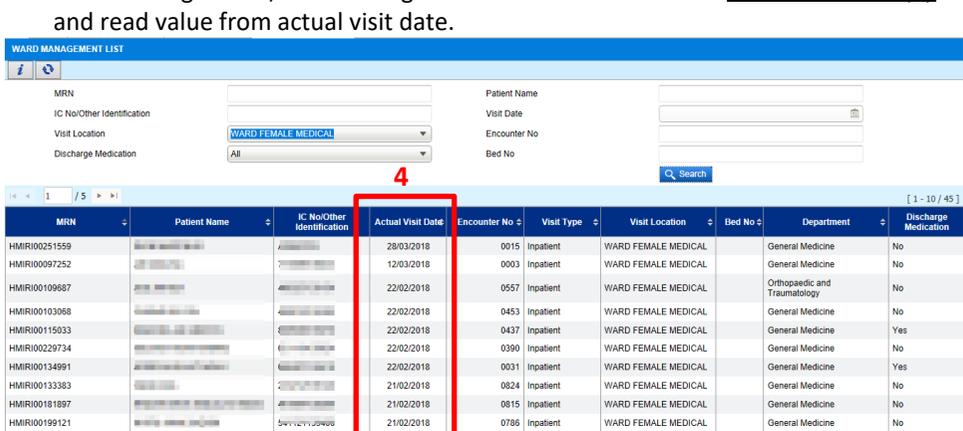

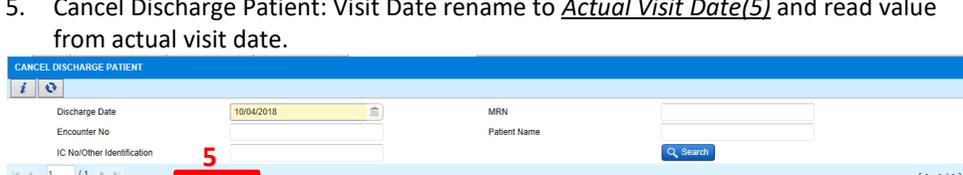

| No. | Ticket # | Description | Requests | Proposed Solution |
|-----|--------------------------|--|--|-------------------|
| 6. | I- PhIS021587 917S | <p><u>Visit/Admission - Request to add new field to key in real admission date and time</u></p> <p>Pn Athirah explain her scenario as below:</p> <ol style="list-style-type: none"> 1. Patient admitted to ward at night/midnight. Patient given proper medication prior to their illness at that time. 2. Next day, when pegawai farmasi is on duty, then they will record the prescription (Order Management>Record Prescription) given from previous day for that patient. 3. But, after done transcribe order, the date of visit/admission created is based on the current time the pegawai farmasi key in the details (Medication Order Screen at Visit/Admission section). 4. Differences between the actual time and time in PhIS for the patient that admitted to ward create a confusion to user when they want to create clinical report. <p>As such, she request to create new field name Actual Date/Time Admission when user create/renew visit (SA may refer to file upload the suggestion where the field could be create).</p> | Allow backdate for date of registration. | |
