

Summary of Ticket Number and Requests for Pharmacy Inventory Module – Indent

No.	Ticket #	Description	Requests	Solution
1.	I-PhIS020 807217S	<p><u>Indent (Intra) - Request to add Approval date & time column</u></p> <p>Currently, for intra facility indent, there is only a box stating the date & time an indent is created. However, since intra facility indent involves a two step process; to create an indent & to approve an indent, it would be beneficial for us if there is another box stating the “approval date & time “ of an indent. This will help in preventing conflicts between staff nurses & pharmacy staff whereby the former often states that indents have been sent online despite not asking their superiors to approve in the system. I hope that this enhancement can be implemented soon.</p>	<p>1. To be able to identify the date created and date approved for a particular indent.</p>	<p>1. For Indent - Intra and Indent-Inter (sent to external), in indent listing and screen, to display:</p> <ul style="list-style-type: none"> a. Created date b. Created by c. Approved date d. Approved by <p>2. For Indent-Inter (received), in indent listing and screen, to display:</p> <ul style="list-style-type: none"> a. Indent Approved date (from indenter) b. Indent Accepted date (retrieve date) c. Accepted by (retriever name)
2.	I-PhIS029 085118S	<p><u>RIQ (Inter) - Request insert details user indenter</u></p> <p>User request to insert details indenter before user approve the transaction (At screen Inter Facility Indent) and before issue.</p>	<p>To display indenter name in approval screen</p>	<p>3. To display indenter name (created name) in approval screen</p>
