

Summary of Ticket Number and Requests for Inventory – Quotation

No.	Ticket	Description	Summary of Changes	Solution
1.	I-PHIS014 929816S	<u>RFQ - Request to remove validation for adding at item/product buffer level</u> User request to remove validation for adding at item/product buffer level for RFQ.	Actual request as updated in CR details: When generating Request For Quotation (RFQ), Validity start date & Validity End date could not be edit by user as the tab is highlighted yellow. It is important for users to be able to set the validity start & end date for every quotation as it relates to our procurement procedure.	For Quotation against RFQ, once RFQ No is selected, to enable fields Validity Start Date, Validity End Date

Function Flow	Quotation in current Version 2.0	Quotation in new Version 2.1
<p>1. Quotation – RFQ</p>	<ul style="list-style-type: none"> Unable to fill in 'Validity Start Date' and 'Validity End Date' 	<ul style="list-style-type: none"> Enable fields 'Validity Start Date' and 'Validity End Date' on selection of 'RFQ No'. Value is mandatory. <ol style="list-style-type: none"> Default value for 'Validity Start Date' based on current date and 'Validity End Date' default based on 'Validity Start Date' + Quotation Validity. User is allowed to edit the default value, once value changed, the 'Quotation Validity' value will update based on the selected date range (range in days between 'Validity Start Date' and 'Validity End Date'). Same with Quotation Type = eP, 'Validity End Date' value will impact to Purchase Order screen where only quotation with 'Validity End Date' >= Current Date will be listed in Purchase Order screen.
