4. Summary of Ticket Number and Requests on Patient Registration-Visit Admission

No.	Ticket #	Description	Requests	Solution
1.	I-PHIS0143 22216S	<b><u>Patient Registration - Visit type auto default as outpatient</u></b> User reported when register patient, visit type will auto default as outpatient. User at inpatient pharmacy, request visit type can change default setting.	To default Visit Type based on Dispensing Location type (IP and OP for Pharmacy based).	Visit Management - To default Visit Type based on Dispensing Location type (IP and OP for Pharmacy based).
2.	I-PHIS0284 43318S	<b><u>Record Prescription - Admission-Visit Type appear Outpatient</u></b> User reported Visit Type auto default to Outpatient at Admission even Dispensing Location : Farmasi Pesakit Dalam. Location Setup: Not tick to visit type : Outpatient.	To default Visit Type based on Dispensing Location type (IP and OP for Pharmacy based).	Note: Default visit type only applicable for Inpatient or Outpatient only.
3.	I-PHIS0217 49317S	<b><u>Location Setup - Request To Add Option For Default Visit Type &amp; Default Department</u></b> User request for the addition of default visit type as well as default department in the patient registration screen. This will speed up the process of registering new patients as visit types can be automatically set for each dispensing counters e.g "Inpatient" visit type for Kaunter Farmasi bekalan Wad & "Outpatient" visit type for all outpatient counters."	To default visit type based on dispensing location type. Addition of default visit type as well as default department in the patient registration screen.	
4.	I-PHIS0171 06116S	<b><u>Admitting Doctor- Request only doctor with same department with patient appear</u></b> User request during create visit, at admitting doctor only doctor with same department with patient appear. User comment: Currently, system will appear all doctor name.	Add filter by department in doctor listing.	Visit Management filter - To add filter by 'Sub Discipline' instead of Department in admitting doctor list.
5.	I-PHIS0184 27317S	<b><u>Transcribe Order - Request different colour font for different type of visit and location</u></b> User request different colour font for different type of visit Example : Visit Type : Outpatient - Blue font (Location all in blue font) Inpatient - Yellow font (Location all in yellow font) Emergency - Red font (Location all in red font) To avoid mistake during renew visit.	Solution change to move renew visit column next to visit type.	Renew Visit (pharmacy based at Rec. Prescription link) - Move Renew Visit column next to Visit Type. No color changes needed.

PHIS & CPS Project - Quick Guide For Patient Management

Function Flow	Current Version 2.0	New Version 2.1
<p>1. Default Visit Type based on Dispensing Location (Pharmacy Based)</p>	<p>1. Go to Record Prescription and create visit with <u>Dispensing Location= (Outpatient) (1).</u></p> <p>2. Visit type is will be defaulted to <u>Outpatient(1).</u></p>  <p>3. Then choose <u>Dispensing Location= (Inpatient) (3).</u></p> <p>4. Visit type still remain as <u>Outpatient(4).</u></p> 	<p>1. Go to Record Prescription and create visit with <u>Dispensing Location= (Outpatient) (1).</u></p> <p>2. Visit type is will be defaulted to <u>Outpatient(1).</u></p>  <p>3. Then choose <u>Dispensing Location= (Inpatient) (3).</u></p> <p>4. Visit type will auto change to <u>Inpatient(4).</u></p>  <p><b>Note:</b> Default visit type only applicable for Inpatient and Outpatient only.</p>
<p>2. Add filter by 'Speciality' in Admitting Doctor list</p>	<p>1. Go to Patient Management&gt;Patient Registration list.</p> <p>2. Click on any patient and open the Admission/Visit screen.</p> <p>3. Drop down the admitting doctor list and no filter for speciality available.</p> 	<p>1. Go to Patient Management&gt;Patient Registration list.</p> <p>2. Click on any patient and open the Admission/Visit screen.</p> <p>3. Drop down the admitting doctor list and there are filter by Speciality.</p> 

PHIS & CPS Project - Quick Guide For Patient Management

Function Flow	Current Version 2.0	New Version 2.1
<p>3. Move Renew Visit column next to Visit Type</p>	<p>1. Go to Patient Management&gt;Patient Registration list.            2. Click on any patient and open the Admission/Visit screen.            3. Go to Visit Admission section and found that Renew Visit column is locate on the right.</p>  	<p>1. Go to Patient Management&gt;Patient Registration list.            2. Click on any patient and open the Admission/Visit screen.            3. Go to Visit Admission section and found that Renew Visit column is locate next to Visit Type column, which this ill ease user to renew the visit by conparing on visit type.</p>  

PHIS & CPS Project - Quick Guide For Patient Management

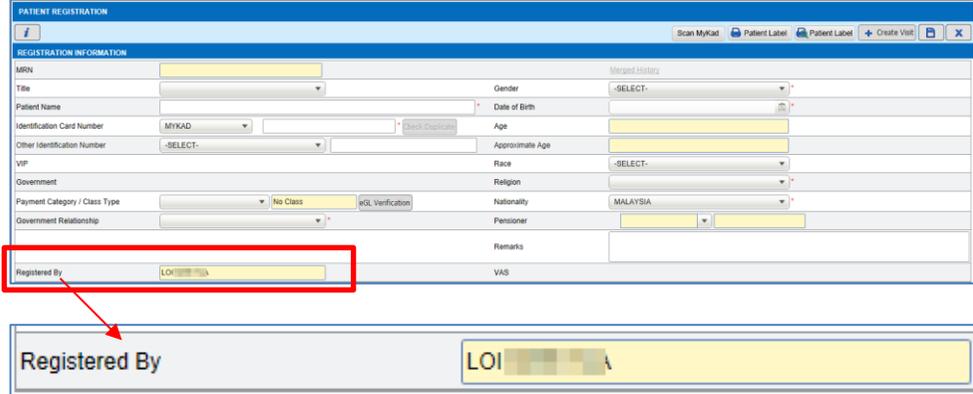

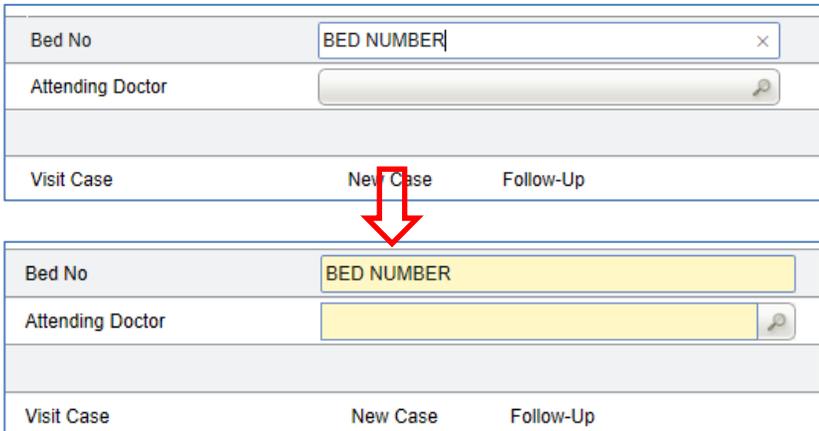

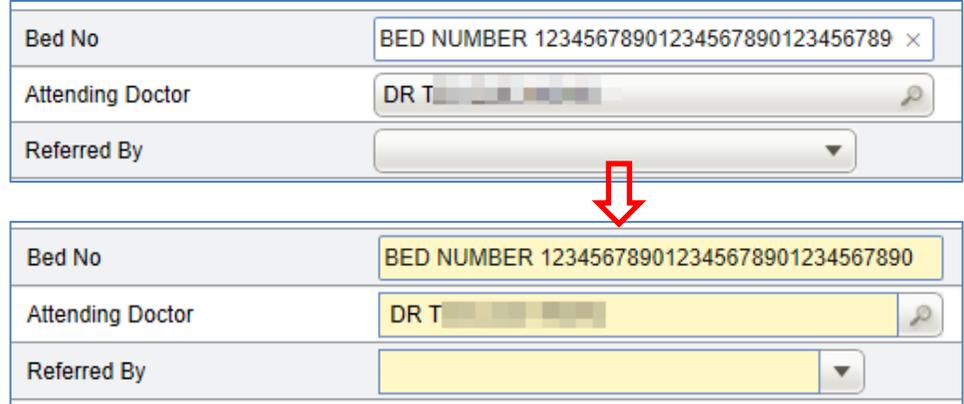

**5. Summary of Ticket Number and Requests on Patient Management**

No.	Ticket #	Description	Requests	Solution
1.	I- PHIS02028 4717S	<b><u>Patient Registration - Request to add new column</u></b> User from IT unit request to add new column in Patient Registration screen as 'Registered By'. He inform sometime PT register patient using wrong patient ID and they do not admit their mistake. In addition, PT also wrongly merge patient ID which make it worse. Therefore, he request to add 'Registered By' column.	Add new column to display Registered By in patient management.	Add in 'Registered By' inside the patient registration screen
2.	I- PHIS01991 6117S	<b><u>Visit Management - Request to add more character for column bed</u></b> User reported on behalf user En Ibrahim, informed that user want to request at visit management for Bed Column fill, able to add max=50 character.	Increase field for bed number to 50 character.	1. To increase bed column to 50 varchar. (check also on patient and visit label is need changes). 2. Add in 'Bed' in Visit Admission screen for new patient in Transcribe Order.
3.	I- PHIS01254 2015S	<b><u>Request to add 'Bed' in Visit Admission</u></b> User request to add 'Bed' in Visit Admission for New Patient in Transcribe Order. User request for 'Bed' no need to be mandatory.	Add in Bed No in Visit Admission screen.	Add in 'Bed' in Visit Admission screen for new patient in PB.
4.	I- PHIS02390 9118S	<b><u>Patient Registration : Request to prompt confirmation message</u></b> User request for system to prompt Confirmation message once click save button after click Discharge patient. As for now system just keep save without prompt any confirmation message.	To remove 'Deceased/Death' from drop down discharge reason.	To remove Deceased/Death from drop down box when discharge as deceased. User must select Deceased/Death using checkbox only.
5.	I- PHIS02400 7218S	<b><u>Admission / Visit - Request to prompt alert message before save</u></b> User request to prompt alert message "there is main visit: inpatient, please discharge the visit first before create Outpatient Visit". This issue to avoid Outpatient Visit become referral visit and staff at Outpatient not realized if Inpatient Staff not discharge medication.	To display alert if user create outpatient visit with active inpatient visit.	To display alert if user create outpatient visit with active inpatient visit.
6.	I- PHIS02140 6517S	<b><u>Visit Management - Request to have popup when create new inpatient visit if already have active visit</u></b>	To display alert if user create outpatient visit	

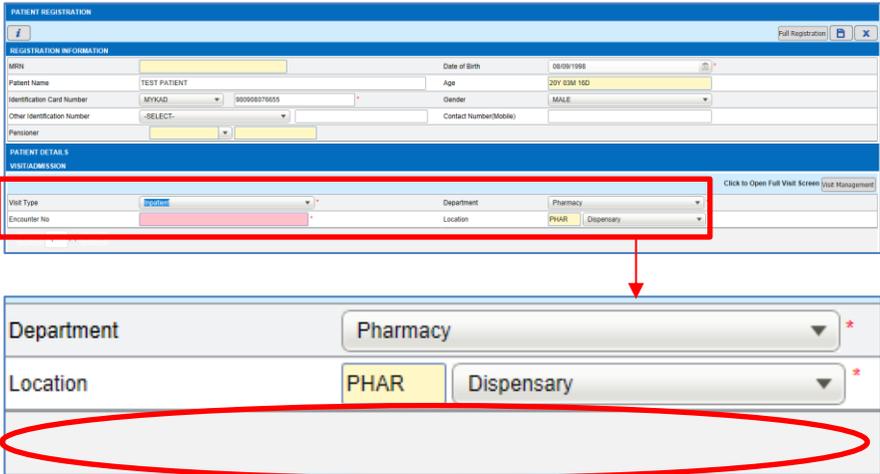

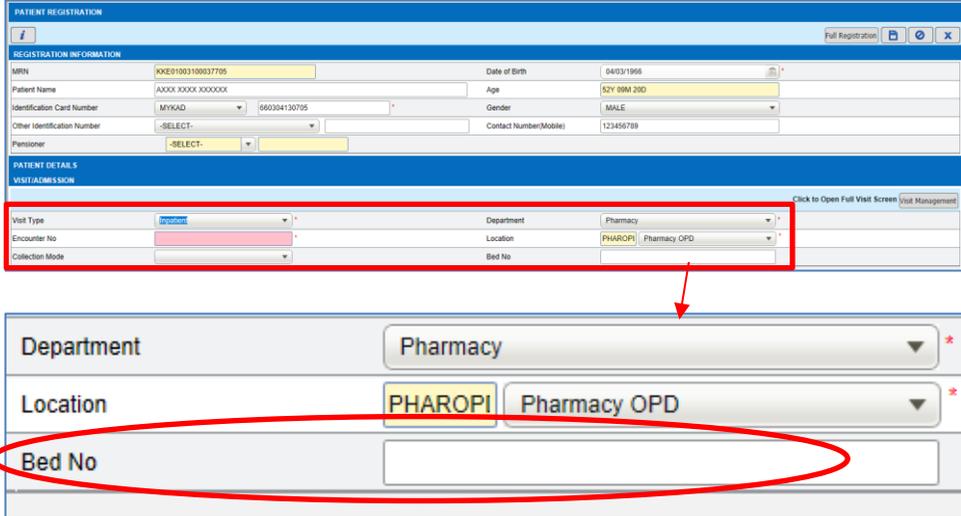

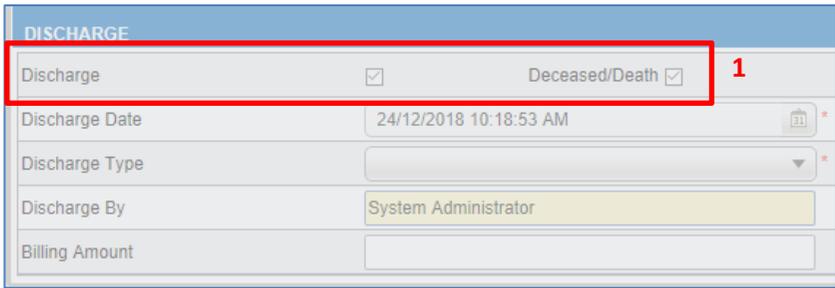

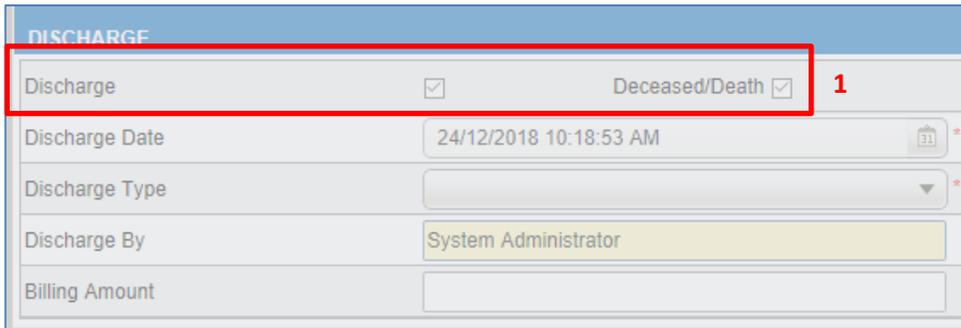

PHIS & CPS Project - Quick Guide For Patient Management

No.	Ticket #	Description	Requests	Solution
		User request to have popup when create new inpatient visit if already have active visit. The popup should be like 'Do you want to proceed with create new visit or create new patient transfer' . This is due some user might mistakenly create new visit instead of transfer the patient	with active inpatient visit.	
7.	I- PHIS04419 1418S	<p><b>Request allow to refer patient from emergency to outpatient</b></p> <p>User request Emergency unit able to refer patient to Outpatient Clinic. User currently system not allow to refer patient from emergency unit to outpatient unit. User informed current process flow that already practiced at facility as below:</p> <ol style="list-style-type: none"> <li>1) User will discharge patient from emergency unit</li> <li>2) User register patient at outpatient clinic</li> <li>3) User will discharge patient from outpatient clinic</li> <li>4) User register patient again at emergency unit.</li> </ol>	User should be able to create referral visit for emergency visit.	Allow user create referral visit for Emergency visit. To follow concept of Inpatient referral. User can decide whether the new visit is referral or not.
